1 Head Gardener.	1 Scythe man.
1 Night-watch.	

In addition a number of temporary men were engaged during the year.

STRUCTURAL ALTERATIONS AND IMPROVEMENTS.

The principal alterations and improvements effected were with regard to :—

The Southern Extension.—The conflict between the reluctance of the Committee to cover this area with fences and sheds and their desire to make the most effective use of it for a display of exhibits and the relief of the enclosures in other parts of the Garden has been reconciled by

grouping animals and birds of different genera with no restrictions as to freedom of movement over the entire space. This has afforded considerable interest to observers who have had the patience and opportunity to watch the conduct of the inmates towards each other. It may be necessary to sub-divide the area at least once as inter-breeding between different species cannot be permitted, and this places a severe restriction upon the number which can be accommodated.

The substitution of a wide ditch, of a depth which prevents wading across, for fences and railings, takes advantage of the disinclination of animals to jump out of water, gives an unobstructed view to the visitor and is a form of enclosure which is rarely found in the Zoological Gardens of Europe and is entirely new to India.

Remodelling of the Murshidabad House.—The condition of the central dome and the wooden circular roof of the Murshidabad House had so deteriorated that it had become necessary to remove and rebuild them entirely on improved designs. All woodwork has been taken away and an iron frame with galvanized wire work and Ranigunge tiled roof have been substituted. The floor of the interior cages has been resurfaced and made rat-proof. From a sanitary point of view also the structure is now greatly improved.

Segregation Shed.—A well-raised and airy shed, with three compartments having a common exercise paddock attached, was erected in the Begunbari for the accommodation of sick animals.

The Hermitage.—The flooring of some of the rooms had to be resurfaced, and a red polished patent stone flooring was provided. The electric installation also required renovation which has been done.

GENERAL ANNUAL REPAIRS.

The general annual repairs to the buildings of the Garden were carried out departmentally as usual and painting of fences and iron-work to a considerable extent was done during the year.

VISITORS.

It is satisfactory to report that there was a considerable increase in the number of paying visitors during the year notwithstanding prevailing economic conditions. The turnstile records indicate a total of 842,616 visitors and show an increase of 127,577 over the figures for 1919-20.

Corresponding with the increase in the number of visitors there was an increase in gate receipts of Rs. 13,321-12. The following is a comparative statement of visitors and gate receipts for the last three years :—

Year.	Visitors.	Receipts.	
		Rs	A.
1918-19	635,497	48,490	0
1919-20	715,039	54,524	2
1920-21	842,616	67,845	14

A large number of children under four years of age, and school children in charge of their teachers were admitted free. On the days of the Fancy Fair, when no individual charge is levied, it is estimated that about 18,000 visitors entered the Garden. In addition 42,698 persons visited the Garden on free days, of which a list, with the number of visitors on each, will be found in Appendix C.

FINANCE.

The financial condition of the Garden is on the whole satisfactory in spite of the high cost of food grains. By curtailing the running expenses of the Garden in its executive department and the strictest economy in other directions, the Committee have been enabled to set aside a substantial sum, included in the item shown as expended on original construction, in order to repair and improve some of the older buildings and make other permanent improvements designed to ameliorate the conditions under which the animals are kept. These will be taken in hand whenever the cost of materials is so reduced as to bring them within the means at the disposal of the Committee.

The amounts of income and expenditure are summarised in Appendix A.

GARDEN.

The usual work in the general maintenance of the Garden and in the care of lawns, walks and roads was carried on as usual throughout the year. The floricultural department was carefully attended to and flowering annuals were successfully exhibited at the Annual Flower Show of the Agri-Horticultural Society.

The Committee desire to express their thanks to the Corporation of Calcutta for their continued generosity in remitting the consolidated rates in respect of the Gardens.

The thanks of the Committee are also due to those ladies and gentlemen who have added to the Zoological collection by donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species of animals was already sufficiently well represented, or owing to want of accommodation.

The Committee also desire to express their thanks to the Railway and Steamer Companies for the conveyance of animals belonging to the Garden free of charge.

P. L. BUCKLAND,
President.

W. K. DODS.
Honorary Secretary.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta block* in certain selected articles during the five months, April to August, 1921, as compared with the corresponding period of 1920 and 1919. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta by rail, river, canal, road, and sea (coastwise) during the five months, April to August, 1921, amounted to 6,455,000 maunds, as against 4,471,000 maunds in the corresponding period of the preceding year,—an increase of 1,984,000 maunds or 44 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 12 per cent in the imports of coal and coke (48,576,000 maunds as against 55,270,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 16 per cent, the total value amounting to Rs. 3,90 lakhs as against Rs. 4,66 lakhs in 1920. The quantity of indigo imported during the five months, April to August, 1921, decreased from 3,124 maunds last year to 644 maunds. The imports of raw jute amounted to 1,161,000 bales as against 1,732,000 bales,—a decrease of 571,000 bales or 33 per cent. The importations of gunny bags also showed a decrease to 112 million bags from 209 millions in the preceding year. The total imports of oilseeds (linseed and rape and mustard seed) decreased by 361,000 maunds, or 9 per cent, from 3,978,000 maunds to 3,617,000 maunds and those of sugar decreased by 144,000 maunds, or 34 per cent, from 425,000 maunds to 281,000 maunds. The imports of tea increased from 897,000 maunds to 917,000 maunds or by 20,000 maunds or nearly 2 per cent.

Exports.—The value of the exports of cotton piecegoods, foreign, from Calcutta* by all routes during the five months, April to August, 1921, decreased by 21 per cent from Rs. 10,28 lakhs to Rs. 8,16 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 591 million bags to 409 millions, but the shipments of gunny bags to other Indian ports increased from 19 to 24 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 2,310,000 maunds to 2,551,000 maunds, or by 241,000 maunds or 10 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

COMMITTEE TO INVESTIGATE THE SCHEME FOR THE PROPOSED NEW HOWRAH BRIDGE.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 4TH NOVEMBER 1921.

RESOLUTION—No. 3541Marine.

IN October 1920, public bodies and representative associations in Calcutta were consulted on the various proposals that have been made for a new bridge over the Hooghly at Howrah with special reference to the type of bridge which should be adopted. In the discussions which ensued a new point of great importance was raised as to the necessity of providing an opening span permitting the passage of ocean-going steamers. It was suggested that in modern conditions, it is unnecessary for traffic purposes for ocean-going steamers to proceed above the bridge and that the

requirements of the port would be met by a bridge with a fixed headway permitting the passage of inland craft.

2. As this point appeared to have a material bearing on several of the problems arising out of the question of the type of bridge to be adopted, the Governor in Council decided that it was necessary to undertake its investigation. He has ascertained that there is no objection on the part of the naval authorities to the river above the bridge being closed to ocean-going steamers, while a representative committee, which was appointed to examine the manner in which local interests would be affected by the proposal, has reported that as a matter of fact no ocean-going steamers now proceed above the bridge except for purposes of repair, and that the only interests which would be adversely affected by the closing of the upper reaches of the Hooghly to ocean-going steamers are those of the owners and lessees of certain docks above the present bridge which are now used for repair purposes. Arrangements could, however, be made for the repair of such vessels to be carried out at docks below the bridge, and the committee have come to the conclusion that it is not necessary for the work of the port that ocean-going steamers should continue to proceed above the bridge and that it would suffice to have a bridge with a fixed headway permitting the passage of inland craft.

3. The Governor in Council has no hesitation in accepting the view of the committee that an opening span is not essential for the work of the port, and he is of opinion that the question of the new Howrah bridge has now reached a stage at which it should be possible for Government to come to a final decision as to the type of bridge to be adopted and to proceed with its construction as soon as the necessary financial and other arrangements can be made. The problems involved are, however, so complex, and the advice which His Excellency in Council has received is so conflicting, that he thinks it desirable that the matter should be reviewed by a competent body before a final decision is taken, which will affect the vital interest of Calcutta for many years to come. He has accordingly decided to refer the whole question to an expert committee, and he trusts that with their advice and assistance he will be able to arrive at a conclusion which will commend itself to the judgment of the numerous and important interests concerned.

4. The complete discussions that have taken place on the subject will be laid before the committee, and it is only necessary here to summarise very briefly the main considerations involved. The three types of bridge which have been considered are—

(1) the single span arch,
(2) the pier or girder type,
(3) the floating type.

The advantages of the single span arch type are undoubted. Apart from aesthetic considerations, it would avoid the obstruction to navigation which is inevitably caused by a floating bridge and the risks of silting and changes in the course of the river which the sinking of piers would involve. On the other hand, the cost of a single span arch bridge would be high, and competent advisers take a very serious view of the risks which such a structure would run in the conditions prevalent on the banks of the Hooghly from abutment pressure, wind pressure and earthquakes. These risks would doubtless be lessened by the elimination of an opening span, but it is by no means certain that they would be reduced to an extent which would make it safe to disregard them. In the case of a pier or girder bridge, similar risks, except possibly earthquake risks, could probably be disregarded, but the Governor in Council is advised that before a bridge of this kind could be constructed, it would be necessary to sink trial piers in order to ascertain their probable effect on the river bed. These experiments would necessitate a delay of at least two or three years in starting the construction of the bridge, and even at the end of that period, the results might not be conclusive. The disadvantages of the floating type of bridge are well known. It permanently obstructs the river traffic and the necessity for periodical openings causes considerable inconvenience to road traffic also. This inconvenience, and

obstruction would not be greatly lessened, even if it were decided to close the river above the bridge to ocean-going steamers, since a floating bridge could not provide a permanent passage for inland craft without excessively steep approach gradients, and an opening span would therefore still be required. On the other hand, a bridge of the floating type would be more free from risks and could be constructed more cheaply and easily than any other type. If it is decided to retain a bridge of the floating type, it will be a matter for consideration whether there should be a single bridge with a wider roadway than that of the present bridge, or whether, as has been proposed by Sir Bradford Leslie who designed the present bridge, it would be preferable to replace it by a twin bridge.

5. These being the main considerations involved, the Governor in Council would like the advice of the committee in the first place on the question whether the risks attendant upon the single span arch type of bridge, even after the elimination of the opening span, are so serious as to make its adoption unduly hazardous. If it is decided that Government would not be justified in running the risks involved in the single span arch type. the committee should consider what other type they can recommend, having regard to the considerations stated above and to any other considerations which may present themselves. If, on the other hand, the committee consider that the difficulties connected with the single span arch type are not insuperable, the question will still remain whether the advantages of this type are sufficient to outweigh the additional expense involved. It has been argued that a prosperous and wealthy city like Calcutta can afford the best and most efficient bridge that modern engineering science can produce. On the other hand, the cost of the new bridge will fall directly or indirectly on the people who use it, and it has been contended that the present generation may rest satisfied with a type of bridge which, in spite of admitted drawbacks, served its purpose well until increasing traffic made it inadequate for the needs of the city, and which is free from the risks which would necessarily be involved, at least to some extent, in the adoption of any new design. Though the committee has been so constituted as to provide Government with an authoritative professional opinion on the various engineering problems involved, its members are all interested from different points of view in the prosperity and convenience of the public of Calcutta and its neighbourhood, and the Governor in Council invites a full expression of their opinion from the widest point of view.

6. The committee will be constituted as follows :—

Sir Rajendra Nath Mookerjee, K.C.I.E., President.

Sir George Godfrey, Kt., Agent, Bengal-Nagpur Railway. Mr. C. D. M. Hindley, Chairman, Port Commissioners, Calcutta. Mr. J. McGlashan, Chief Engineer, Port Commissioners, Calcutta. Mr. J. R. Coats, Chief Engineer, Calcutta Corporation. Mr. C. Addams-Williams, C.I.E., Secretary to the Government of Bengal, Irrigation Department.	Members.
Mr. G. G. Dey, Secretary to the Government of Bengal, Public Works Department.	Member and Secretary.

The committee will sit in Calcutta on such dates as may be arranged by the President, and it is hoped that they will be able to submit their report by the middle of December. Any persons interested, who desire to place their views before the committee or to give evidence, should communicate with the Secretary not later than the 15th November 1921.

A. MARR,

Secretary to the Government of Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR SEPTEMBER 1921.

I. **Character of the Season.**—During the month under report the rainfall was above the normal in nine districts and it was markedly so in Jalpaiguri, Chittagong and the Chittagong Hill tracts; elsewhere the fall was defective. The usual rainfall statement is appended.

II. **Progress of Agricultural Operations.**—The harvesting of autumn paddy was completed. Steeping and washing of jute was still continuing in places. Transplantation of winter paddy was completed; weeding was progressing. Preparation of lands for *rabi* crops and sowing of pulses and *kalai* commenced on high lands in parts of western districts.

III. **State of Standing Crops.**—The condition of deep-water winter paddy was fair and that of sugarcane and transplanted winter paddy was reported to be generally satisfactory.

IV. **Prospects and Probable Outturn.**—The outlook of the transplanted winter paddy was reported to be highly promising throughout the presidency and a good crop may be reaped. The provincial outturn of autumn paddy has been estimated to amount to 81 per cent. of the normal.

V. **Damage of Standing Crops.**—Some damage to jute and other standing crops was reported from parts of the 24-Parganas, Nadia, Jessore, Khulna and Malda, partly from flood and partly from insect-pests.

VI. **Condition of Agricultural Stock.**—The condition of live-stock was reported to be generally satisfactory. Sporadic cases of cattle-disease were, however, reported from ten districts.

VII. **Failure of Pasturage and Fodder.**—Fodder and water were reported to be sufficient throughout the Presidency.

VIII. **Prices of Food Grains.**—During the second-half of the month under review the price of common rice of the cheapest quality rose in two districts, fell in fifteen and remained stationary in the rest of the Province. It ranged from 5 seers 4 chittacks per rupee at Rangpur to 8 seers at Jessore.

IX. **Condition of Agricultural People.**—The condition of the agricultural population was fairly well.

NOTIFICATION.

No. 9338.—The 11th November 1921.—The following is published for general information.

A. CASSELLS,
Chief Secretary
to the Government of Bengal (offg.).

Indian Civil Service Competitive Examination in India.

The following instructions are provisional, and are subject to modification if this is found necessary.

COPIES MAY BE OBTAINED ON APPLICATION TO THE CHIEF SECRETARY OF THE PROVINCE WITHIN WHICH THE APPLICANT RESIDES.

A competitive examination for the Indian Civil Service will be held in Allahabad in the months of February and March 1922 or about that time.

Quotas.—The London Civil Service Commissioners, who will conduct the examination, state as their opinion based on a wide experience of examinations for the public services, that it is not possible to hold an examination of so important a nature, in which the qualities and defects of each candidate must be individually studied and appraised, satisfactorily, if the number of examinees exceeds 200. It is thought likely that the number of persons wishing to enter for the examination in India will seriously exceed 200, and the Commissioners have accordingly proposed a system under which provincial Committees will be formed to select from among duly qualified applicants 200 candidates for admission to the examination. This procedure has been accepted by the Secretary of State and the Government of India as the most suitable in the circumstances. The 200 examinees will be made up of quotas from the various provinces according to the following table:—

Assam	5
Bengal	33
Bihar and Orissa	22
Bombay	25
Burma	15
Central Provinces	12

RESOLUTION.

As applications are received by the Government of India from time to time for appointments in the Geological Survey Department from candidates resident in this country, it has been considered desirable that definite rules should be prescribed for dealing with such applications before they are

Rules have accordingly been prepared, following the rules applicable to candidates resident in England, which were published with Resolution No. M.-5-17, dated the 25th September 1920. These rules have been approved by His Majesty's Secretary of State for India and are annexed to this Resolution.

ORDER.—Ordered that a copy of the foregoing Resolution be forwarded to all Local Governments and Administrations, the Director, Geological Survey of India, and the Accountant-General, Central Revenues, for information, and that it be published in the Supplement to the *Gazette of India*.

2. The age of candidates should ordinarily not exceed 25, but this rule may be relaxed in exceptional cases. Every candidate must be in sound bodily health, and will be required on appointment to satisfy a Medical Board appointed by the Government of India of his physical fitness in all respects to perform the duties of the Geological Survey, which involve considerable fatigue and exposure. Unmarried candidates are preferred.

3. Preference will be given to candidates who have served in His Majesty's Forces during the war. Completed years of combatant service will, subject to a maximum of four years, count for pay and promotion, but not for leave, while, as to pension, officers retiring after 20 and less than 25 years' service will be allowed to count a maximum of two years, and those retiring after 25 years' service a maximum of three years.

4. Besides a good general education, a sound education in geology is essential; a University degree and a knowledge of French or German will be regarded as important qualifications; and certificates of good character will be required. Candidates must also have had one or two years' practical training in mines or in technical laboratories, as may be required by the Government of India.

5. The sanctioned establishment and pay of the Geological Survey Department are as follows :—

The overseas pay is admissible only in the case of officers of non-Indian domicile.

A local allowance of Rs. 150 per mensem is granted to the officer doing the work of Palæontologist at headquarters. The officer holding the appointment of Museum Curator also receives allowance of Rs. 150 per mensem. The allowances are classed as duty allowances.

No allowance of the nature of exchange compensation is given.

6. Pay commences from the date of appointment to the department. Travelling allowances regulated by the rules applicable to the Department are allowed at a rate calculated to cover actual expenses of tentage and locomotion.

7. First appointments are probationary for two years, at the end of which time the probationer, if found qualified and retained in the Department, will reckon his service for leave and pension from the date of appointment.

8. Under ordinary circumstances all Assistants, unless they have special claims from previous training and experience elsewhere, will enter the Department in the lowest class.

The annual increase of pay of assistants will in all cases be granted only on the certificate of the Head of the Department that the Assistants so recommended have fully deserved it by the intelligence and zeal with which their duties have been performed.

9. Promotion to the grade of Superintendent will depend on qualifications and merit and on the existence of vacancies in that grade. While local experience and training must always hold a very prominent place in estimating the position or the promotion of Assistants, it must be distinctly understood that mere seniority of service, unaccompanied by proved ability and steady devotion to duty, gives no claim to promotion into the higher grades of the staff of the Survey.

10. The leave, leave allowances, and pensions of officers of the Department are governed by the provisions of the Civil Service Regulations applicable thereto. These regulations are liable to be modified by the Government of India from time to time.

The following resolution, issued by the Government of India in the Home Department, published in the *Gazette of India Extraordinary*, dated the 8th November 1921, is republished for general information.

A. CASSELLS,
Chief Secretary
to the Government of Bengal (offg.).

No. F.-149—I. (Estabts.).

Delhi, the 8th November 1921.

RESOLUTION.

In their report on clause 36 of the Government of India Bill of 1919, the Joint Committee observed—

"The Committee think that every precaution should be taken to secure to the public servants the career in life to which they looked forward when they were recruited, and they have introduced fresh provisions into this clause to that end. If friction occurs, a re-adjustment of persons and places may often get over the difficulty, and the Governor must always regard it as one of his most important duties to establish a complete understanding between his ministers and the officers through whom they will have to work. But if there are members of the service whose doubts as to the changes to be made are so deeply rooted that they feel they cannot usefully endeavour to take part in them, then the Committee think it would only be fair to those officers that they should be offered an equivalent career elsewhere, if it is in the power of His Majesty's Government to do so, or, in the last resort, that they should be allowed to retire on such pension as the Secretary of State in Council may consider suitable to their period of service."

The principle embodied in this recommendation, namely, that public servants, the conditions of whose employment have been altered by the constitutional changes introduced by the Act of 1919, could not in certain circumstances fairly be required to continue in the service of the Crown in India, was accepted by the Secretary of State; the detailed orders necessary to give effect to it have since been the subject of prolonged consideration by the Government of India and the Secretary of State; and the Government of India are now in a position to announce the decision of the Secretary of State in Council regarding applications for permission to retire prematurely, and the terms which will be granted to officers whose applications are accepted by the Secretary of State. In framing these terms the object aimed at has been to secure as just a mean as can be devised between an offer which is open to the criticism that few of those in whose interests it is made can afford to avail themselves of it, and one so liberal as to seem unfair to those who are willing to remain and play their part in the new order; and while duly recognising the claims of loyal and meritorious service which might have continued both to the public advantage and to the increasing credit of the officer himself, to avoid any unjustifiable addition to the non-effective charges which have to be met from Indian revenues.

2. The constitutional changes introduced by the Act of 1919 have affected the structure of the central Government and that of the provincial Governments unequally. The central Government is still an official Government responsible to the Secretary of State and to Parliament, and there has been no such alteration in the conditions of service of officers employed under it as would justify a relaxation of the rules governing retirement and pensions. For the present, therefore, and pending any further constitutional developments which may affect the character of the central Government, applications for permission to retire prematurely in consequence of the reforms will be considered only if received from officers who :—

(1) are members of the following services :

(*a*) the Indian Civil Service;
(*b*) the Indian Police Service:
(*c*) the Indian Forest Service;
(*d*) the Indian Educational Service;

(*e*) the Indian Agricultural Service;
(*f*) the Indian Service of Engineers;
(*g*) the Imperial branch of the Civil Veterinary Department;
(*h*) officers of the Indian Medical Service in civil employ;
(*i*) military and other officers holding posts other than listed posts borne on the provincial cadres of any of the above mentioned services; and

(2) are not permanently employed under the Government of India, that is, officers who will not normally serve in future under a provincial Government; and

(3) arrived in India for the first time after joining the service in question on a date antecedent to the 1st January 1920, the Act of 1919 having become law a few days before this date.

3. All applications must reach local Governments before the 31st March 1924, by which date officers will have had ample opportunity to appreciate the effects of the recent constitutional changes, and to arrive at a considered decision. Officers of the services specified who do not apply before that date will not be eligible for a pension on premature retirement in consequence of any constitutional developments which may subsequently take place. In the case of officers serving under the Government of Burma, where the reformed constitution is not yet in force, the period within which applications may be made will be extended beyond the 31st March 1924, to a date which will be announced hereafter, but no officers serving in Burma will be permitted to retire under the terms of this resolution before reforms have actually been introduced in the province. Every application must be accompanied by a certificate in the following form:—

"I consider that the conditions of my service have been radically changed by the introduction of the reformed constitution and in consequence thereof I feel unable to serve the Government of India with advantage to the State. I, therefore, desire to be released from the obligations which I undertook in different circumstances."

Applications when received by local Governments will be forwarded with their recommendations to the Governor-General in Council, and will be transmitted by him to the Secretary of State whose orders will be required before any officer is finally adjudged entitled to the new concessions. The Secretary of State in Council reserves to himself the right to postpone the acceptance of the resignations of officers until suitable arrangements can be made for their replacement. Officers who are not allowed for this reason to retire immediately will be permitted to retire as soon as the exigencies of the service to which they belong permit.

Proportionate pension admissible.

4. The compensation normally to be awarded to an officer who is allowed to retire prematurely will be such pension as is appropriate to the conditions and the period of his service. It would be improper, however, to burden Indian revenues with the payment of a pension to any officer who has not completed 5 years total service and is in view of his age in a position probably to take up a new career in life. But in all services alike such officers will be eligible for a gratuity equal to the number of completed years of total service multiplied by their monthly pay at the date of their retirement. This gratuity will be converted into sterling at the rate of 1*s.* 9*d.* per rupee, the ordinary rate for the conversion into sterling of Indian pensions expressed in rupees.

The pension to be allowed to officers who have completed more than 5 years total service will in all cases be based upon the number of completed years of active service and not of total service. Active service will for this purpose be interpreted in the same way as active service for the purposes of pension in article 8 of the Civil Service Regulations, war leave being treated for this purpose as privilege leave. The pensions calculated on this basis which will be admissible to officers in the various services are indicated below. In all cases the letter "n" is used to denote the number of completed years of active service.

(*a*) *Indian Civil Service.*—The maximum pension of £1,000 is obtainable after 21 years active service. The pension admissible will be £n÷ 21×1,000, subject to a maximum of £1,000 a year.

(*b*) *Officers to whom the ordinary pension rules in Part IV of the Civil Service Regulations apply*—

(*i*) A maximum ordinary pension of Rs. 6,000 a year is obtainable after 30 years service, of which 4 years may be spent on leave out of India; *i.e.*, the pension of Rs. 6,000 is obtainable after 26 years active service In addition these officers may obtain additional pensions under article 475A of the Civil Service Regulations and for the purpose of the present scheme it is assumed that they will qualify for the maximum lower additional pension of Rs. 1,500 per annum, making a total of Rs. 7,500 per annum, after 26 years active service. The pension admissible will therefore be Rs. n ÷ 26 × 7,500 a year, subject to a maximum of Rs. 6,000 a year.

(*ii*) Under the provisions of articles 403 to 404A of the Civil Service Regulations members of certain services are permitted to add additional years to their actual qualifying service for superannuation pension, but not for any other class of pension. Such officers will, however, be allowed to deduct the number of additional years which they may be entitled to rekon under the articles cited from the divisor, 26.

(*iii*) The pension will be converted into sterling at the rate of 1*s.* 9*d.* per rupee, the ordinary rate for the conversion into sterling of Indian pensions expressed in rupees.

(*c*) *Officers of the Indian Army in civil employ.*—Under the provisions of paragraph 305 of the Army Regulations, India, Volume II, an Indian Army officer remains on the effective list of the Army and is eligible for reversion to military employment until he is placed on the supernumerary list on the expiration of ten years from the date of his original transfer to civil employment. An officer who has not yet been so placed on the supernumerary list and who desires to take advantage of the concessions set out in this resolution will first be given an opportunity of returning to military employment and he will not be eligible for any of them unless the Army is unable or unwilling to absorb him.

The ordinary maximum pension obtainable by an Indian Army officer in civil employment is £800 a year. This pension is obtainable after approximately 30 years total service, and for present purposes it may be assumed that of this period about 5 years might have been spent on furlough.

The pension admissible to these officers will therefore be £n÷25×800, subject to a maximum of £800 a year.

(*d*) *Officers of the Indian Medical Service in civil employ.*—An officer of the Indian Medical Service who desires to take advantage of these rules will similarly be given first an opportunity of returning to military employment, and he will not be allowed any concession under this resolution unless the Army is unable or unwilling to absorb him.

Under the ordinary rules pensions are admissible to officers of the Indian Medical Service after 17 years total service. Special provision is therefore required only for officers of less than 17 years total service. The pension after 17 years total service is £400 a year, of which three years may be assumed to have been spent on furlough, and the pension admissible to those officers will therefore be £n÷14×400, subject to a maximum of £400 a year.

Gratuity.

5. In addition to the gratuity or pension admissible to an officer under paragraph 4, a gratuity equal to the actual cost of first class fares and passages from his last place of employment in India to his new home for the officer himself and for his wife and children, if in India, or in the case of passages, free passages of the same number and class, will be granted to an officer in India at the time when he retires or goes on leave preparatory to retirement, under the terms of this resolution, provided that he actually proceeds to some other part of the British Empire. No officer, however, will be entitled to receive any gratuity under this paragraph if he is entitled to the maximum pension specified for his service in paragraph 4. The gratuity will be payable under the orders of the local Government under whom the officer is serving, when he actually retires or proceeds on leave preparatory to retirement and after the Secretary of State has approved of his admission in due course to the benefits of this resolution.

Leave

6. An officer who desires to retire under the terms set out in this resolution will ordinarily be allowed to take the full amount of leave admissible to him under the regulations for the time being in force subject to the condition that it shall expire on the 31st March 1924. After that date officers will normally only be allowed to take the privilege leave admissible to them. It will, however, be within the competence of the local Government to grant leave, which will extend after that date, to an officer who has given notice of his intention to retire under these rules before that date, if he has enjoyed no leave after the date of this resolution and has after the date of this resolution formally applied to Government for and been refused leave.

Indian Civil Service Family Pension

7. In order to secure suitable provision for the widows and orphans of members of the Indian Civil Service contributions are compulsorily deducted from their salaries during their period of service. A *pro forma* account is maintained of the receipts and payments, and the contributions levied are so adjusted that the pensions provided by the regulations shall not bring any charge on Indian revenues in excess of the amount specially sanctioned in aid of the pensions and for the cost of management. Members of this service who desire to retire under the terms of this resolution, will naturally desire to be informed of the family pension terms which will be admissible to them These will be as follows, according to the alternative, of the three permissible, for which the officer elects.

(*a*) He may cease to make any contributions and payments under the regulations and he will retain only the right to a proportion of the contingent benefits under the regulations for his wife and children existing on the date of retirement and for any children subsequently born to that wife. This proportion shall be equal to the number of his completed years of total service divided by 25, and the calculation shall be based upon the pension admissible to the widow of an officer of the class to which he belonged at the time of his retirement.

(*b*) He may continue up to his 54th birthday (the age up to which an officer who resigns the service before becoming entitled to a pension under the ordinary rules is required to continue to subscribe if permitted to do so at all) to make contributions under the regulations at the rates payable by him at the date of retirement and he will then retain the right to the full contingent benefits admissible under the regulations, according to his class on the date of his retirement, for his wife, existing at the date of retirement and for any children by her whether born before or after retirement. Under this alternative subscriptions will be payable under the ordinary regulations for each child whether born before or after retirement. Further, the widow's pension under the regulations varies with the class of an officer at his death, and in this case the right to the contingent widow's benefit retained will be limited to the scale applicable to her if her husband had died at the time of retirement.

(*c*) He may continue up to his 54th birthday to make contributions and payments under the regulations at the rates which would have been payable by him from time to time had he remained in the service. In this case he will retain the full benefits admissible under the regulations as if he had remained in the service until death or retirement with an ordinary pension.

The Secretary of State in Council will make good to the Indian Civil Service Family Pension Fund under a suitable procedure any loss which these concessions may be estimated to throw upon it.

8. A few minor points remain for settlement, *e.g.*, the family pension terms which will be admissible to Indian Army officers and the conditions

upon which the commutation of pensions admissible under paragraph 4 will be allowed. The decisions on these points will be announced later.

ORDERED that a copy of this Resolution be forwarded to all local Governments and Administrations; to the several Departments of the Government of India (including the Financial Adviser, Military Finance) and to the Heads of Departments subordinate to the Home Department.

Ordered also that the Resolution be published in the *Gazette of India Extraordinary* for general information.

Secretary to the Government of India.

No. F.-149—II (Estabts.).

Delhi, the 8th November 1921.

RESOLUTION.

The Governor-General in Council has separately announced the special terms sanctioned by the Secretary of State in Council for officers retiring prematurely in consequence of the introduction of constitutional reforms.

It is considered desirable to announce at the same time the undermentioned general decisions of the Secretary of State in Council as to the right of officers to retire under the ordinary regulations. Note 2, under article 465-A of the Civil Service Regulations, which was introduced with the new pension rules announced on the 15th November 1919, reserved to Government an absolute right to decline to permit an officer to retire before reaching the age of superannuation should it be necessary in the public interest to retain his services. This note has, it is understood, led members of the services to fear that it may in the future be difficult to secure permission to retire before the age of superannuation. Indeed, certain officers, it is believed, have on this account refused to accept the new pension rules. In order to allay this apprehension, it has been decided—

(*a*) in the case of officers in service on the 15th November 1919, to substitute for the rule in Note 2 under Article 465-A of the Civil Service Regulations a rule giving them the right to retire subject to six months notice; and

(*b*) in the case of officers who have joined or who may join service after that date to substitute for the rule in Note 2 a new rule corresponding to the rule in Article 561 of the Civil Service Regulations (which has always been applicable to memers of the Indian Civil Service) and permitting them to retire on pension under the ordinary rules when their resignations have been accepted.

Any officer who may have declined to elect to come under the provisions of the new pension rules, because of his objection to this note, may now elect in writing before the 31st March 1922 to do so. This option applies also to any person who may have retired already after the announcement of the new pension terms in November 1919.

ORDERED that a copy of this Resolution be forwarded to all local Governments and Administrations; to the several Departments of the Government of India (including the Financial Adviser, Military Finance) and to the Heads of Departments subordinate to the Home Department.

Ordered also that the Resolution be published in the *Gazette of India Extraordinary* for general information.

RESOLUTION ON THE FORMATION OF TECHNICAL COMMITTEE IN CONNECTION WITH HYDRO-ELECTRIC SURVEY.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 12TH NOVEMBER 1921.

RESOLUTION—No. 2-I.

THE Government of Bengal have had under consideration the question of adopting measures for proceeding with the hydro-electric survey of Bengal,

in order to investigate and determine suitable sites for generating hydro-electric power. The question was discussed at the conference of members and Directors of Industries in Simla and it was pointed out by the Chief Engineer, Hydro-electric Survey of India, that the responsibility for the survey rests with the Public Works Department, and that the Department of Industries is very closely connected with the question; as the possibility of development of new industries, especially those for which electric power in large quantities is essential, depends greatly on the existence of cheap hydro-electric power.

2. To meet this dual interest the Industrial Commission suggested the appointment of a Joint Committee comprised of members of the Public Works Department and the Department of Industries to consider what measures should be taken to conduct and control the work of the hydro-electric survey in Bengal. The Director of Industries suggested that the survey should be confined to the Hill Tippera area round Comilla and Chittagong in the first instance.

3 The Government of Bengal have, after consideration, accepted the suggestion of the Industrial Commission and the Governor in Council is now pleased to appoint a joint committee consisting of the following members to consider and submit a report on the subject :—

President :

The Chief Engineer, Irrigation Department, Government of Bengal.

Members :

The Director of Industries, Bengal.
The Electric Adviser and Electric Inspector, Bengal.

Secretary :

Under-Secretary to the Government of Bengal, Irrigation Department.

4. The place and dates of the meetings of the committee will be announced later.

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette* and copies of it be forwarded to the President, Members and Secretary to the Committee, all Departments of the Government of Bengal, the Commissioners of Divisions, and the Superintending Engineers of Public Works Circles in Bengal, for information.

By order of the Governor in Council,

C. ADDAMS-WILLIAMS.

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE COMMITTEE APPOINTED TO ENQUIRE INTO THE FACTS OF THE INCIDENTS AT MOHANGANJ *HAT* IN CONNECTION WITH THE ESCAPE OF PRISONERS FROM THE RAJSHAHI JAIL.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police.

RESOLUTION—No. 3919Pl.

CALCUTTA, THE 11TH NOVEMBER 1921.

AT the meeting of the Bengal Legislative Council held on the 14th July 1921, the following resolution was carried :—

This Council recommends to the Government that an enquiry be made by a committee of officials and non-officials into the unfortunate incidents at Mohanganj Hat in connection with the escape of prisoners from the Rajshahi Jail.

A committee was accordingly appointed, in Government resolution No. 2810Pl., dated the 31st August 1921, consisting of Mr. D. H. Lees, I.C.S., Commissioner of the Rajshahi Division, as president, and Rai Mrityunjay Ray Chaudhuri Bahadur and Maulvi Yaquinuddin Ahmad, M.L.C., as members, with instructions to enquire into and report on the facts of the incidents in question. The report submitted by the committee is published herewith for the information of the public.

2. The previous account of the Mohanganj incident which was given in paragraphs 14 and 15 of Government resolution No. 1245Pl., dated the 17th May 1921, led up to the following conclusions :—

The whole unfortunate affair of the attempted arrest was due to a mistake, but to a mistake which was perfectly *bona fide*, and, indeed, intelligible. The mêlée having once started, some of the recruits got out of hand and fired without orders, with the unfortunate results mentioned. The Governor in Council shares in the regret of all concerned that the incident should have occurred, and compensation is being paid to the men wounded and to the family of one deceased.

The report of the committee corroborates this general finding on the facts with the exception of one point of detail regarding which there is a difference of opinion. In the resolution of the 17th May last it was stated that Taki Pramanik (who subsequently died) was hit by a stray shot ; the committee think that he was fired at by the recruits after he had jumped into the river. It is noticeable that both Mr. MacDowell and inspector Linford heard no firing after that at the hut ; the former definitely says that no recruits fired at any one in the river and that he would have noticed them if they had done so. The inference to the contrary rests on the testimony of three men named Mamin Mirdha, Pacha Mirdha and Baritulla Pramanik. The first two say Taki jumped into the river, after which they heard shots ; they had taken refuge in a mosque and did not see who fired. The third saw a man in the river, after which he heard three shots. It is relevant to note that at a previous non-official enquiry Mamin Mirdha is stated to have said that Taki was shot by a sahib, whereas it was Nafar Khamaru who was fired at by the Superintendent of Police. The question as to how Taki was wounded cannot be said to be entirely free from doubt.

3 In the report of the committee two findings are particularly noticeable, and refute the allegations to the contrary made in the course of the debate in the Legislative Council. It is held (*a*) that there is no evidence that zenanas were molested or women insulted. and (*b*) that there was no blameworthy neglect of the wounded men.

4. In judging the action taken the committee has made the following adverse criticisms —

(i) That the recruits had no justification for firing at Taki Pramanik.

This is referred to at paragraph 2 above. There is no evidence as to who actually fired.

(ii) That the police should have announced their object in visiting the village after the coolies had been awakened.

It is apparently admitted that in the first instance the police were justified in trying to effect a surprise; it is also admitted that after the mêlée had subsided Mr. Bell did his best to explain matters to the villagers. The unexpected firing and confusion afford at least some explanation of the omission to do so previously.

(iii) That Mr. MacDowell's decision to search the village was an error of judgment, and

(iv) that he should not have fired at Nafar Khamaru.

These two incidents were in sequel to the original mistake of the pursuing force. They had admittedly conducted a long, arduous and exhausting chase; Mr. MacDowell had actually collapsed some little time previously; in the middle of the night they were under the impression that they were at last on the heels of the escaping convicts, and they thought they had only to rush in to effect their recapture. Two convicts were, in fact, arrested in the village. Realising that to have been the position, Mr. MacDowell's action was intelligible, but it has never been denied that a mistake was made which had regrettable consequences.

5. The Governor in Council accepts the recommendation of the committee that a prompt and full magisterial enquiry should be held whenever the police have occasion to use firearms, and steps are being taken to amend the existing orders to that effect.

6. His Excellency in Council desires to express his cordial thanks to the President and the members of the committee for undertaking the enquiry.

ORDER.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and forwarded to the Commissioner of the Rajshahi Division for information and for communication to all officers concerned.

By order of the Governor in Council,

A. CASSELLS,

Chief Secretary

to the Government of Bengal (offg.).

Report of the Committee appointed to enquire into the Mohanganj Incidents.

After a preliminary meeting at Jalpaiguri, we proceeded to Rajshahi where Mr. Reid, Mr. MacDowell, Mr. Bell and inspector Linford were examined on the 19th September. We went to Mohanganj on the 20th September, and after seeing the scene of occurrence examined other witnesses there on that day. Returning to Rajshahi we re-examined Mr. MacDowell and Mr. Bell on certain points. We could not examine the men from the Sonthal Parganas who were arrested at Mohanganj as they had returned home. For reasons given below we did not examine the Sarda recruits. Subadar Wali Muhammad is now on leave in the Punjab and could not be examined.

2. The incidents at Mohanganj about which this committee has been appointed to enquire occurred in the course of the pursuit of the 669 convicts who escaped from Rajshahi Jail on the 24th March. The convicts in a body marched along the main road to Nator as far as Matihar, where they turned northwards along the road leading to Godagarihat and Mohanganj. Mr. MacDowell, the Superintendent of police, arranged for extra guards for the treasury, magazine and protection of the town and proceeded with 30 armed police and a few armed warders in pursuit of the convicts. With this small force somewhat reduced he came up to the main body of convicts about four miles from Matihar, where the police fired and the convicts broke and fled. Soon afterwards Mr. MacDowell, who felt unwell, was compelled to rest in a village not far from Godagari Hat and became separated from his men who went on in pursuit of the convicts. He was found by a scouting party under Subadar Wali Muhammad, who belonged to a large body of armed recruits which had been sent out at the instance of the District Magistrate under the command of Mr. Bell, Assistant Principal of Sarda Training College, in pursuit of the convicts. Mr. MacDowell proceeded on with these men and sent back word to Mr. Bell, who came on and joined Mr. MacDowell about 11-30 P.M. The whole force then proceeded towards Mohanganj. On the way information was received that the convicts had looted the Mohanganj Hat and were resting there in an exhausted state. It was also reported that they were armed with four or five guns. The road was found strewn with convicts' clothing. At a distance of about half a mile from Mohanganj Subadar Wali Muhammad was sent on to reconnoitre. He returned with the information that about 40 men, who seemed to be convicts, were lying asleep in a shed. Mr. MacDowell then proceeded on to Mohanganj. The exact strength of the force at Mohanganj is not known as stragglers dropped out on the way, but it is estimated by the witnesses to have been from 100 to 200 men.

3. The scene of ocurrence may be described. The shed in which the suspected convicts were sleeping was outside a large *bari* belonging to a substantial cultivator, Sahar Mulla. This *bari* lies a little on the west of the road from Godagari to Mohanganj about half a mile south of Mohanganj Hat in a small hamlet extending to the river Baralai, which is at this point about 150 yards from the road. The road converges towards the river which it meets at Mohanganj Hat. North of Sahar Mulla's *bari* are dense bamboo clumps, and north of these are a few houses. There is another hamlet north of the one first mentioned, separated from it by an open piece of ground, and extending up to Mohanganj Hat along the river.

4. On arriving at the village Subadar Wali Muhammad pointed out the shed, and Mr. MacDowell gave the order to surround it. At first from 20 to 30 men went to surround the hut, but a man was seen running away and Mr. Bell, thinking that the man had come from the hut, gave the order for more men to double up and practically the whole force surrounded it. On the south side the shed was partly open and Mr. MacDowell could see the feet of men sleeping. He gave the order to arrest them. Some of the recruits seized the men lying nearest them. The men then wakened up and rushed to get out. There was a struggle and suddenly a shot was fired by a recruit. Other shots were then fired. No order to load had been given and the men fired without orders. Mr. MacDowell, Mr. Bell and Subadar Wali Muhammad shouted at the recruits to stop firing, and the firing ceased. It was thought by the officers that in the indiscriminate firing some of their own men might

have been wounded, and Mr. MacDowell asked if any had been wounded, but no one said he had been wounded. Three of the men in the hut had been wounded by gun shot, but this fact was not known to the police officers. Mr. MacDowell ordered the arrested men to be taken to the road and to be kept there, and gave orders for the rest of the force to go into the village to make further arrests. He himself proceeded with some of these men.

5. In the meantime the sound of firing aroused the villagers, who thought a dacoity was being committed, and many came out to see what was happening. Among these were Taki Pramanik, Mamin Mirdha, Pacha Mirdha and Baritulla Pramanik, whose houses are in the same hamlet as Sahar Mulla's. They came together and had reached a small private mosque on the bank of the river near Sahar Mulla's *bari* when they suddenly came on several armed men. Baritulla who was in front was first caught. Mamin and Pacha took refuge in the mosque, where they were seized. Taki jumped into the river and began to swim across. He was fired at by the recruits. Baritulla says that they shouted out "A prisoner is escaping" and that three shots were fired. Some of the recruits went in a boat across the river, but returned saying that they could find no trace of the man. Baritulla, Mamin and Pacha were then taken to the place where the other arrested men had been kept near Sahar Mulla's house. From evidence given before us by Samir Pramanik, adopted son of Taki, it appears that Taki was found on the other side of the river that night by a man named Askar, who brought him in a boat whence he was taken to his house. Taki was not caught by the police, and the fact that he was wounded was not then known.

6. Mr. MacDowell first went into Sahar Mulla's *bari*. The men had run away and only Sahar Mulla's mother remained. She went into one of the numerous houses in the *bari* and shut the door. The recruits came in but did not force open the door and she was not molested. Mr. MacDowell then made a line with some recruits and went through the dense bamboo clumps. At the same time he gave orders to a havildar to take some men round to the north side of the hamlet to prevent men escaping. In beating through the bamboo clumps he saw a man crouching in a dry ditch and warned him not to run away. The man ran towards the river and Mr. MacDowell with some recruits pursued him. The man jumped into the river and swam across to the far side, where he remained for a few minutes. Mr. MacDowell shouted to him in Bengali, warning him not to run away, but he got up and ran some distance, and Mr. MacDowell fired one charge of buckshot at him. The man was caught on the far side of the river by some recruits who crossed in a boat and brought him back. It was then found that the man was Nafar Khamaru, a boatman who had come from Mohanganj ghat to see what was happening. He was then taken to the place where the other arrested men had been kept. A few men who were found hiding in the village were also arrested. Mr. MacDowell then came back to the place where the men originally arrested had been kept near Sahar Mulla's house.

7. In the meantime Mr. Bell had remained on the road with inspector Linford and was busy in restoring order among the recruits who had gone into village. He realised that the villagers had mistaken the police for dacoits and that most of the men who were caught running away were merely frightened villagers. He explained to some of the villagers the object of the police visit, and by the time Mr. MacDowell had returned the villagers had learnt that a police force had come for the arrest of the escaped convicts. The police were informed that the convicts had passed through soon after dusk Among others the naib of the Tahirpur zamindar came up and, at the request of Mr. MacDowell, arranged to supply some food for the recruits. Between 1 A.M. and 1-30 A.M., the police force proceeded in their pursuit of the convicts, leaving the men arrested under a police guard. The incidents described had all occurred within the space of little more than an hour.

8. The circumstances in which Mr. MacDowell came to have only the Sarda recruits with him have been explained above. In the grave emergency the District Magistrate was fully justified in asking the Principal of the Sarda Training College to send out a strong force of armed recruits. None of these recruits had more than 18 weeks' training, and as they are put through their musketry course in the last two months of their six months' training, they had only done a little of their musketry course. All the recruits had left Sarda by the time our enquiry commenced and had gone to different districts of Bengal. The statements of some of the recruits were

recorded by the District Deputy Superintendent of Police on the 9th April. We did not think that any useful purpose would be served by delaying our enquiry in order to secure their attendance, as it was very unlikely that further light would be thrown on the firing incident by examining them further six months after the occurrence. Some of the recruits examined admitted firing without orders, and from their statements it would appear that after the first shot was fired some of the recruits fired thinking that this was a shot fired by one of the convicts. They had heard on the way that some of the convicts had four or five guns which they had taken from the jail. It could not be ascertained who fired the first shot. It is clear that in the struggle, when the men rushed out from the hut, some of the recruits got out of control, loaded their guns and fired. The recruits had left Sarda at 3-30 P.M., and in the course of a long march on a hot day up till midnight had nothing to eat except a little parched rice which they got at Godagari Hat. The force was composed of Bengalis, Hindustanis and Gurkhas. The men were excited at the start as they were interrupted in the middle of their Holi festival. In our opinion Mr. MacDowell and Mr. Bell are not to blame for the firing at the hut. During the short halt outside Mohanganj village Mr. Bell specially cautioned the men against firing. This caution was given as the recruits knew that there had already been firing. The recruits were brought under control as soon as possible, and were ordered to unload. There was a second burst of firing in the course of the search for convicts in the village, and Taki Pramanik was shot by some recruits. This firing was also without orders, and the plea that the recruits thought the man escaping was a convict is no justification for their action. It appears that no disciplinary action was taken against the recruits who fired. The Principal of the Sarda Training College seems to have decided to wait for the result of the enquiry. There was no departmental enquiry, and as no orders were communicated after the enquiry nothing was done. We think that, whenever the police use fire-arms without orders, it is desirable from the point of view of discipline that there should be a departmental enquiry apart from any other enquiry which may be made.

9. On the information received Mr. MacDowell was justified in surrounding the hut in which the men were sleeping and in taking measures to ascertain whether these men were convicts, but, as there was doubt on this point, we think the police should have announced their object after the coolies had been awakened. The view put forward by the police officers is that it was expected that the men could be arrested quietly and then enquiry could be made from the villagers, and there was no reason to anticipate firing which upset their plans. Admitting that there is some force in this point of view we must remark that as a matter of fact the men arrested were not questioned, though a few questions would have enabled the police officers to find out that these men were not convicts but Sonthal labourers. After the firing near the hut when it was obvious that the villagers had been alarmed, Mr. MacDowell should have taken prompt steps to make known to the villagers that the police force had come to arrest the convicts. Mr. Bell remained on the road, and, recognising that the police had been mistaken by the villagers for dacoits, did his best to bring the recruits into order and to explain matters to the villagers. Mr. MacDowell's decision to search the village was an error of judgment. Such information as he had pointed to the probability of the convicts being at the hat if they were still at Mohanganj. Mr. MacDowell had not gone to Mohanganj before, and it was all the more necessary to inform the villagers of his object and get their assistance. It should also have been obvious that after the firing at the hut there was great risk of the recruits getting excited and again firing. There was in fact a second burst of firing in which Taki Pramanik was wounded. It is true that two convicts were arrested somewhere in the village that night, but the chance of catching a few scattered convicts did not justify a raid on the village without any warning to the villagers. We are also of opinion that Mr. MacDowell was not justified in firing at Nafar Khamaru even after warning as he had no good reason for assuming that the man running away was a convict and should have realised that he might be a frightened villager. It is admitted that warning was given to Nafar Khamaru, but the story given by a villager Srikanta Sarkar, who says that he was present, is that he shouted out a warning at Mr. MacDowell's request. Srikanta Sarkar also says that he told

Mr. MacDowell that the man was probably a villager, but Mr. MacDowell denies this, and says that there was no villager present at the time. Mr. MacDowell has given his evidence in a very straightforward manner and has not attempted to minimise his responsibility for what took place. We think that, if Srikanta Sarkar's statement is correct, Mr. MacDowell could not have understood him in the confusion. We recognise the zeal and energy displayed by Mr. MacDowell in the pursuit of the convicts at a time when he was in a weak state of health. The circumstances were abnormal, and Mr. MacDowell was unfortunate in not having a single officer or man of the district police with him. We are of opinion that whenever there are casualities owing to the use of firearms by the police it is desirable that there should be a prompt and full enquiry by the District Magistrate. In the present instance no such enquiry was made.

10. In the Council debate an allegation was made that zenanas were insulted. This allegation refers to improper treatment of Maina Bibi, mother of Sahar Mulla. This lady had been previously questioned by the District Magistrate, who was satisfied from her statement that though she was frightened no harm was done to her. We questioned this lady at her house and she explained that she took refuge in one of the houses in the *bari* and shut the door. She was frightened when the recruits, then mistaken for dacoits, entered the *bari*, but remained safe in the house as no attempt was made to force open the door, and the men went away. It is noticeable that in a letter written three days after the occurrence to Babu Kishori Mohan Chaudhuri, M.L.C., of Rajshahi by Babu Hari Krishna Saha, a villager of Mohanganj, who went out on the night of the occurrence and saw what was going on, there is no mention of any insults to women though other incidents were described.

11. As already stated it was not known to the police that Taki Pramanik had been wounded. The naib of the Tahirpur zemindar who resides at Mohanganj did not hear that Taki had been wounded until two days after the occurrence. He was not caught by the police, and it is admitted by the village witnesses that he was not seen by any sahib on the night of the occurrence or next morning. He was taken to Tahirpur dispensary by his son Samir the day after the occurrence. The medical officer says that he admitted the patient at 6 P.M. and extracted some pellets from the right knee-joint, and then, as there was insufficient light to operate further, instructed the relatives who accompanied him to stay there with him till next morning. They however went away and the man was not brought again. He died about 10 days afterwards. The district officials cannot be blamed for the want of proper treatment. The man would probably have recovered if he had been left for further operation at Tahirpur. It appears that in the confusion and hurry at night the fact that three men arrested at the hut had received gun shot wounds was not noticed. Two of these men had slight wounds, but Sital had a severe wound through the jaw. Nafar Khamaru received attention from Mr. MacDowell and was detained with the other men. In the morning the District Magistrate told the wounded men to go to Tahirpur dispensary, which is 6 miles distant. The men were quite capable of walking, and Mr. Reid did not then know that a motor lorry had arrived at Mohanganj Hat. Mr. Reid was in a great hurry to get on after the convicts and only made a brief halt at Mohanganj. It did not occur then to him to make use of the lorry as he presumed that the wounded men had gone on. Nafar Khamaru was treated at Madhnagar dispensary, which is near his home. The other men were treated at Tahirpur dispensary, but Sital's wound being serious he was sent on to Nator hospital from Tahirpur. All these men recovered. In the circumstances we cannot blame anyone for neglect of the wounded men.

CALCUTTA, THE 8TH NOVEMBER 1921

RESOLUTION—No. 3759Pl.

On the 31st August 1921 a resolution was carried in the Bengal Legislative Council to the following effect :—

"This Council recommends to the Governor that a Committee consisting of officials and non-officials be appointed to consider the incidence of the cost of the Calcutta police, with special reference to the possibility of its being met in whole or part from the proceeds of a police rate."

The general argument of the mover was that the time had come to revert to the system, which was at one time in force, by which the cost of the police in Calcutta was met, at least in part, from a special police rate. Opposition to this view was voiced by certain members particularly connected with Calcutta, and on behalf of Government it was said that no objection would be raised to the investigation of the question by a Committee which could hear the different interests concerned. The Governor in Council has therefore decided to appoint a Committee consisting of the undermentioned official and non-official gentlemen to enquire into and report on the matter :—

1	Mr. C. H. Bompas, C.S.I., I.C.S., Chairman, Improvement Trust, Calcutta, ...	*President.*

CALCUTTA, THE 8TH NOVEMBER 1921.

RESOLUTION—No. 2364Edn.

IN connection with the improvement and extension of primary education in the town of Calcutta a scheme was worked out by the Education Department providing for—

(*i*) the establishment of a training college for 100 teachers ;

(*ii*) the building of 13 model boys' schools, each accommodating 350 boys, and one model girls' school for 200 girls ;

(*iii*) the improvement annually of 5 per cent. of the existing boys' schools ; and

(*iv*) the taking over and improvement of such new schools as spring up every year.

The scheme is estimated to involve approximately a capital expenditure of Rs. 20½ lakhs and a recurring expenditure of Rs. 4¼ lakhs. The Corporation of Calcutta have approved the scheme, and having accepted the apportionment of the cost suggested by the Government of Bengal, the Government in the Ministry of Education have agreed to contribute Rs. 16 lakhs spread over five years towards the capital expenditure. The Corporation will bear the remainder of the capital cost and the whole of the recurring cost.

2. As the Corporation desired that an early start should be made with the scheme a grant of Rs. 3 lakhs was paid to it during the year 1920-21.

3. The Government of Bengal (Ministry of Education) consider that the control of primary education in Calcutta should be vested in a Joint Committee consisting of representatives of the Corporation and of Government which should advise the Corporation in regard to the supervision and control of primary education in Calcutta. It is accordingly decided to constitute a committee consisting of—

(*i*) The Chairman of the Corporation of Calcutta, President.

(*ii*) Nine Commissioners to be elected by the Corporation of Calcutta, of whom at least one should be a European, one a Muhammadan and one a Marwari.

(*iii*) The Inspector of Schools, Presidency Division.

ORDERS BY THE GOVERNOR OF BENGAL.

NOTIFICATION.

No. 3000.

HIS EXCELLENCY THE GOVERNOR OF BENGAL desires to notify that His Royal Highness the Prince of Wales will hold a Levee at Government House, Calcutta, at 9-30 P.M., on Wednesday, 28th December 1921.

2. Gentlemen, whether European or Indian, who desire to attend the Levee and are eligible to do so by previous presentation at the Court of St. James or at the Viceregal Court, are requested to make their applications to the Military Secretary to His Excellency the Governor of Bengal, Government House, Calcutta, stating in which year and at which Court they had been presented, not later than 28th November 1921. *This applies to both the private and public entrees.* Applications reaching the Military Secretary after this date cannot be considered.

Gentlemen who have not been presented at the Court of St. James or at the Viceregal Court, but who desire to attend the Levee, will be presented by gentlemen who have had the honour of presentation at the Court of St. James or at the Viceregal Court and will submit their applications through them. Direct applications will not be entertained.

3. Gentlemen who propose, and are entitled to, present others should apply to the Military Secretary to His Excellency the Governor of Bengal for a *Form of Presentation* which, after the necessary particulars have been entered thereon, will be returned to the Military Secretary's Office not later than 28th November for submission to His Excellency the Governor, when, if approved, tickets of admission will be issued to the presentor.

4. Gentlemen presenting others must themselves attend the Levee.

5. In the case of Government Officials, or gentlemen engaged in business, the presentor should ordinarily be the head of the department or firm.

6. Admission to Government House will be by tickets only. These will be issued by the Military Secretary to His Excellency the Governor of Bengal as early as possible to those gentlemen other than new presentees whose names are approved by His Excellency the Governor of Bengal for presentation to His Royal Highness the Prince of Wales.

Gentlemen receiving tickets will show them first to the Police at the Gates and secondly will hand them to the Military Secretary to His Royal Highness the Prince of Wales in the Levee Room.

7. All Officers of British and Indian Units and the Auxiliary Force quartered in Calcutta and Barrackpore on the date of the Levee are invited to attend. Application for tickets in this case may be made up till the 15th December to the D. A. A. G., Presidency and Assam District, Calcutta, who will also furnish information as to presentations, etc.

8. Dress :—

(*a*) Civil, Naval and Military Officers—Levee dress (Helmets will not be taken to the Levee). Officers not in possession of Levee Dress will wear Service Dress. In the case of Indian gentlemen in Civil employ, who are entitled to wear uniform, a *pagri* may be substituted for the cocked hat prescribed in the rules, or the national dress which they are accustomed to wear on ceremonial occasions may be worn in place of uniform.

(*b*) Clergymen being University graduates and gentlemen entitled to wear robes or gowns on account of Judicial or Academical office or status and not entitled to wear uniform will appear in such robes or gowns. Barristers' or Vakils' gowns are not reckoned as such.

(*c*) It is desirable that gentlemen not entitled to wear uniform or robes or gowns should appear in Court dress, but they may at their option appear in Evening Dress.

(*d*) The instructions contained in paragraph (*c*) also apply to Indian gentlemen not entitled to wear uniform who have adopted European dress. Indian gentlemen, who have not adopted European dress, will wear Choga, Abba or Jubba, and Chapkan, Chilta, Saya, or Kaba, with trousers and their distinctive National head dress or the ceremonial dress approved for the class by the Local Government.

(*e*) In the case of Bengali gentlemen the head dress should be a pagri generally known as Shamla or Mouratta, and not a brimless cap.

(*f*) In the case of Burmese gentlemen the head dress should be a white fillet, the hair being dressed in a top knot.

(*g*) Indian gentlemen who do not appear in the dress prescribed in (*a*), (*b*) or (*c*) should not remove their head dress when they pass His Royal Highness the Prince of Wales.

(*h*) Medals—Miniatures of medals should be worn with evening dress.

At the Levee, only patent leather boots or shoes of an English pattern are allowed to be worn, except in the case of Indian Military Officers, who wear the particular style of boot or shoe which forms part of their uniform.

* * * * * *

4. Fundamental rule 58 permits any Government servant to exercise the option of remaining under the leave rules to which he has hitherto been subject, provided that this option is exercised within six months from the 1st January next or, if the Governtment servant is on leave on that date, within six months from his return from leave. As an inducement to Government servants to accept the new rules, the Government of India have obtained the consent of the Secretary of State to the grant of the following concession. On the first occasion hereafter on which any Government servant who accepts the new rules takes leave, he will be permitted, at his option, to draw, during that portion of his leave which corresponds to privilege leave, the pay of the post on which he holds a lien, instead of his average pay without limit.

5. Any Government servant who is on leave on the 1st January next may, if he does not desire to exercise the option of remaining under the old leave rules, cancel the unexpired portion of his leave and substitute for it any period of leave to which he will be entitled under the new rules. This concession will be subject to the condition that it should not operate to secure to the Government servant concerned a larger total period of leave on average pay or its equivalent than he would have been able to enjoy had he been subject to the fundamental rules from the commencement of his leave.

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT.

Fundamental Rules

Made by the Secretary of State in Council under section 96B of the Government of India Act.

PART I.

CHAPTER I—EXTENT OF APPLICATION.

1. These rules may be called the fundamental rules. They shall come into force with effect from the 1st January 1922.

2. The fundamental rules apply, subject to the provisions of rule 3, to all Government servants whose pay is debitable to civil estimates in India, and to any other class of Government servants in India to which the Secretary of State in Council may by general or special order declare them to be applicable. In relation to services under its administrative control, other than all-India services, a local Government may make rules modifying or replacing any of the fundamental rules; provided that:—

(*a*) No such rule shall adversely affect any person who is in Government service at the time when the fundamental rules come into force, and

(*b*) any such rule which grants any privilege or concession not admissible under the terms of the fundamental rules, or of the Civil Service Regulations as they stand at the time when the fundamental rules are introduced, shall require the sanction of the Secretary of State in Council.

3. Unless in any case it be otherwise distinctly provided by or under these rules, these rules do not apply to Government servants whose conditions of service are governed by Army or Marine Regulations.

4. The powers specifically granted by these rules to local Governments may be exercised by them in relation to those Government servants only who are under their administrative control. These powers may be exercised by the Governor General in Council in respect of all other Government servants and may be delegated by him, without regard to the limitations of rule 6 and subject to any conditions which he may think fit to impose, to a Chief Commissioner.

5. The power to make rules or general orders conferred upon local Governments by any of these rules shall be exercised after consideration by the Governor with his executive council and ministers sitting together, but the rules and orders so made shall be made by the Governor in Council or by the Governor and Ministers, according as the service affected is attached to a department dealing with reserved or a department dealing with transferred subjects. In the case of services performing duties both in a department dealing with reserved and in a department dealing with transferred subjects, the Governor shall decide by which authority the rules shall be made.

6. A local Government may delegate to any of its officers, subject to any conditions which it may think fit to impose, any power conferred upon it by these rules with the following exceptions :—

(*a*) All powers to make rules ;

(*b*) the other powers conferred by rules 6, 9 (6) (*b*), 44, 45, 83, 119, 121 and 127 (*c*), and by the exception under rule 30.

7. No powers may be exercised or delegated under these rules except after consultation with the Finance Department. It shall be open to that Department to prescribe, by general or special order, cases in which its consent may be presumed to have been given, and to require that its opinion on any matter on which it has been consulted shall be submitted to the Governor by the consulting department.

8. The power of interpreting these rules is reserved to the Governor General in Council.

PART II.

CHAPTER III.—GENERAL CONDITIONS OF SERVICE.

10. Except as provided by this rule, no person may be substantively appointed in India to a permanent post in Government service without a medical certificate of health, which must be affixed to his first pay bill. A local Government may make rules prescribing the form in which medical certificates should be prepared, and the particular medical or other officers by whom they should be signed. It may, in individual cases, dispense with the production of a certificate, and may by general order exempt any specified class of Government servants from the operation of this rule.

11. Unless in any case it be otherwise distinctly provided, the whole time of a Government servant is at the disposal of the Government which pays him, and he may be employed in any manner required by proper authority, without claim for additional remuneration, whether the services required of him are such as would ordinarily be remunerated from general revenues, from a local fund or from the revenues of an Indian State.

12. (*a*) Two or more Government servants cannot be appointed substantively to the same permanent post at the same time.

(*b*) A Government servant cannot be appointed substantively, except as a temporary measure, to two or more permanent posts at the same time.

(*c*) A Government servant cannot be appointed substantively to a post on which another Government servant holds a lien.

13. If a Government servant is transferred to duty which there is reason to believe will not terminate within three years, and retains no connection with his substantive post, a local Government may suspend his lien upon that post and fill it substantively, reserving only the right to reverse the arrangements thus made on the return of the Government servant in question. When the Government servant transferred draws pay in a selection grade of a cadre, another Government servant may, subject to the same reservation, be promoted to the selection grade even if no change of duties is involved.

14. Unless his lien is formally transferred or suspended by the local Government, a Government servant holding substantively a permanent post retains a lien on that post or on a post of the same character in the same cadre,—

(*a*) subject to the exception in rule 97, while on leave ;

(*b*) while on foreign service or holding a temporary post or officiating in another post ;

(*c*) during joining-time on transfer to another post, unless he is transferred substantively to a post on lower pay, in which case his lien is transferred to the new post from the date on which he is relieved of his duties in the old post ; and

(*d*) while under suspension.

Note.—In the case of a chaplain, the acceptance during leave of a benefice in the United Kingdom is not acceptance of foreign service for the purpose of sub-clause (*b*) above.

15. A Government servant shall not, save in cases of inefficiency or misbehaviour, be transferred substantively to a post carrying less pay than his relative position in the cadre of the service to which he belongs would justify.

16. A Government servant may be required to subscribe to a provident fund, a family pension fund or other similar fund in accordance with such rules as the Secretary of State in Council may by order prescribe.

17. Subject to any exceptions specifically made in these rules, an officer shall begin to draw the pay and allowances attached to his tenure of a post with effect from the date when he assumes the duties of that post, and shall cease to draw them as soon as he ceases to discharge those duties.

18. After five years' continuous absence from duty, elsewhere than on foreign service in India, whether with or without leave, a Government servant ceases to be in Government employ.

PART III.

CHAPTER IV.—PAY.

19. Subject to the provisions of rules made under section 45-A of the Act, and to any restrictions which the Secretary of State in Council may by order impose upon the powers of the Governor General in Council or the Governor in Council, as the case may be, the fixation of pay is within the competence of a local Government; provided that, except in the case of personal pay granted in the circumstances defined in Rule 9 (23) (*a*), the pay of a Government servant shall not be so increased as to exceed the pay sanctioned for his post without the sanction of an authority competent to create a post in the same cadre on a rate of pay equal to his pay when increased.

20. When a Government servant is treated as on duty under Rule 9 (6) (*b*) above, the local Government may, if it thinks fit, by general or special order reduce the amount of his pay and allowances.

21. *Time-scale Pay.*—Rules 22 to 29 inclusive and Rule 32 apply to time-scales of pay generally. They do not, however, apply to any time-scale sanctioned by the Secretary of State in Council in so far as they are inconsistent with terms specially so sanctioned for such time-scale.

22. When a Government servant is appointed substantively to a post on a time-scale of pay;—

(*a*) (*i*) if he has not previously officiated in the post, or

(*ii*) if he has officiated in it but his present substantive pay exceeds the pay which he last drew in it,

he will draw as initial pay the pay of the stage in the time-scale next above his present substantive pay, if any, and will draw increments after the periods usually required; and

(*b*) if he has previously officiated in the post, but his present substantive pay does not exceed the pay which he drew when last officiating,

he will draw initial pay equal to that pay, and will count for increment in that stage the period during which he was drawing the said pay.

23. The holder of a post, the pay of which is changed, shall be treated as if he were transferred to a new post on the new pay; provided that he may at his option retain his old pay until the date on which he has earned his next or any subsequent increment on the old scale, or until he vacates his post or ceases to draw pay on that time-scale. The option once exercised is final.

24. An increment shall ordinarily be drawn as a matter of course unless it is withheld. An increment may be withheld from a Government servant by a local Government, or by any authority to whom the local Government may delegate this power under Rule 6, if his conduct has not been good or his work has not been satisfactory. In ordering the withholding of an increment, the withholding authority shall state the period for which it is withheld, and whether the postponement shall have the effect of postponing future increments.

25. Where an efficiency bar is prescribed in a time-scale, the increment next above the bar shall not be given to a Government servant without the specific sanction of the authority empowered to withhold increments.

26. The following provisions prescribe the conditions on which service counts for increments in a time-scale :—

(*a*) All duty in a post to which a time-scale applies counts for increments in that time-scale.

(*b*) Officiating service in another post, service in a temporary post and leave other than extraordinary leave count for increments in the time-scale applicable to the post on which the Government servant concerned holds a lien, or would hold a lien had his lien not been suspended under Rule 13.

(*c*) If a Government servant's tenure of a temporary post is interrupted by duty in another post or by leave other than extraordinary leave or by foreign service, such duty, leave or foreign service counts for increments in the time-scale applicable to the temporary post if the Government servant returns to the temporary post.

(*d*) Foreign service counts for increments in the time-scale applicable to—

(*i*) the post in Government service on which the Government servant concerned holds a lien, or would hold a lien had his lien not been suspended under Rule 13, and

(*ii*) any post to which he may receive officiating promotion under Rule 113 below, for the duration of such promotion.

27. An authority may grant a premature increment to a Government servant on a time-scale of pay if it has power to create a post in the same cadre on the same scale of pay.

28. The authority which orders the transfer of a Government servant as a penalty from a higher to a lower grade or post may allow him to draw any pay, not exceeding the maximum of the lower grade or post, which it may think proper.

29. If a Government servant, who has been reduced to a lower grade or post on account of misconduct or inefficiency, is subsequently promoted or reinstated, his previous service in the grade or post from which he was reduced counts for increments unless the authority promoting or re-instating him declares that it shall not so count either in whole or in part.

30. *Pay of officiating Government servants.*—Subject to the provisions of Chapter VI, a Government servant holding one post substantively, if appointed to officiate in another, may not draw enhanced pay on account of the appointment unless the officiating appointment involves the assumption of duties or responsibilities of greater importance or of a different character. This condition is not fulfilled if the two posts are on the same scale of pay.

Note.—Two posts are said to be on the same scale of pay when they fall within a cadre or a class in a cadre, such cadre or class having been created in order to fill all posts involving duties of approximately the same character or degree or responsibility in a service or establishment or group of establishments ; so that the pay of the holder of any particular post is determined by his position in the cadre or class and not by the fact that he holds that post.

Exception.—In the case of any service, other than an all-India service, which is not organized on a time-scale basis and in which a system of acting promotion from grade to grade is in force at the time of introduction of these fundamental rules, a local Government may waive this condition until such time as the service is next reorganized.

31. Subject to the provisions of Rules 30 and 35, a Government servant officiating in a post will draw the presumptive pay of that post. If, however, the presumptive pay of the post, whether permanent or temporary, which he holds substantively is greater than the presumptive pay of the new post, he will draw pay equal to the presumptive pay of his substantive post.

Note—If the post in which a Government servant officiates is tenable by a Government servant of any one of several grades or classes in a cadre and the fixation of the pay of all such grades or classes is within the competence of the local Government, the local Government may permit the officiating Government servant to draw the pay of any one of such grades or classes.

32. A Government servant officiating in a post on a time-scale draws as initial pay the stage of the time-scale next above his substantive pay, if any ; provided that, if he has previously officiated in the post or in a post in the

same cadre on the same time-scale, his initial pay shall not be less than the pay which he drew when last officiating. All officiating service in any stage of the time-scale, whether continuous or not, counts for increment in that stage. If the presumptive pay of the Government servant's substantive post at any time exceeds the pay calculated under this rule, he will draw pay equal to that presumptive pay.

Note.—In cases where the fixation of the time-scale of pay is within the competence of the local Government the local Government may permit the officiating Government servant to draw as initial pay any stage of the time-scale

33. When a Government servant officiates in a post the pay of which has been fixed at a rate personal to another Government servant, a local Government may permit him to draw pay at any rate not exceeding the rate so fixed or, if the rate so fixed be a time-scale, not exceeding the lowest stage of that time-scale.

34. If a military officer holding substantively a post in a civil department officiates in a military post, he will draw in the military department the emoluments to which he would have been entitled under military rules had his substantive post been a post under the military department.

35. A local Government may fix the pay of an officiating Government servant at an amount less than that admissible under these rules.

36 A local Government may issue general or special orders allowing acting promotions to be made in the place of Government servants who are treated as on duty under Rule 9 (6) (*b*).

37. *Personal pay.*—Except when the authority sanctioning it orders otherwise, personal pay shall be reduced by any amount by which the recipient's pay may be increased, and shall cease as soon as his pay is increased by an amount equal to his personal pay.

38. *Pay of Official Members of the Indian Legislature.*—A Government servant nominated as a member of the Legislative Assembly or the Council of State shall receive, while serving on the Assembly or the Council, the pay which he would from time to time have drawn had he not been so serving. He shall receive, in addition, such travelling allowance as the Governor General in Council may fix.

39. *Pay of temporary posts.*—When a temporary post is created which may have to be filled by a person not already in Government service, the pay of the post shall be fixed with reference to the minimum that is necessary to secure the services of a person capable of discharging efficiently the duties of the post.

40. When a temporary post is created which will probably be filled by a person who is already a Government servant, its pay should be fixed by the local Government with due regard to—

(*a*) the character and responsibility of the work to be performed, and

(*b*) the existing pay of Government servants of a status sufficient to warrant their selection for the post.

41. A person appointed to a temporary post will draw the pay of that post.

42. *Subsistence Grants.*—A local Government may make a subsistence grant to a Government servant in the following circumstances :—

(*a*) To any Government servant other than a military officer, while under suspension.

(*b*) To any Government servant appointed in the United Kingdom, up to a maximum of two months, if, on first arrival in India, he is prevented by illness from proceeding to the seat of the Government to which he is attached or to any other station to which he is ordered to proceed direct.

43. The amount of subsistence grant shall be regulated as follows :—

(*a*) In the case of—

(*i*) a member of the Indian Civil Service, a statutory civil servant or military commissioned officer subject to the civil leave rules ; or

(*ii*) any other Government servant receiving subsistence grant under rule 42 (*b*),

it shall be such as the Secretary of State in Council may by general order prescribe.

(*b*) In the case of any Government servant under suspension, other than a member of the Indian Civil Service or a military commissioned officer subject to the civil leave rules, it shall be such as the suspending authority may direct, but shall in no case exceed one-fourth of the pay of the suspended Government servant.

CHAPTER V.—ADDITIONS TO PAY.

44. *Compensatory allowances.*—Subject to any restrictions which the Secretary of State in Council may by order impose upon the powers of the Governor General in Council or the Governor in Council, as the case may be, and to the general rule that the amount of a compensatory allowance should be so regulated that the allowance is not on the whole a source of profit to to the recipient, a local Government may grant such allowances to any Government servant under its control and may make rules prescribing their amounts and the conditions under which they may be drawn.

Note.—Compensatory allowance does not include the grant of a free passage to or from the United Kingdom, which requires the general or special sanction of the Secretary of State in Council; nor, for the purpose of this rule, does it include a sumptuary allowance.

45. *Provision of Residences.*—When Government supplies a Government servant with a residence leased, acquired or constructed at Government expense, the following conditions shall be observed:—

(*a*) The scale of accommodation supplied shall not exceed that which is appropriate to the status of the occupant.

(*b*) Save in the circumstances mentioned in clause (*e*) below, the occupant shall pay rent for the residence, and such rent shall not exceed the standard rent which the local Government may fix for the residence, or 10 per cent. of the occupant's emoluments, whichever is less. Emoluments, for the purpose of this rule, include compensatory allowance other than travelling allowance, whether drawn from general revenues or from a local fund, and pension, if the occupant is in receipt of pension.

Note.—The standard rent shall be calculated as follows:—

(*i*) In the case of leased residences, it shall be the sum paid to the lessor, *plus* such allowance for maintenance and repairs, if these are a charge on the local Government, as the latter may fix.

(*ii*) In the case of residences acquired or constructed by Government, it shall be calculated on the cost of acquiring or constructing the residence, including any capital expenditure incurred after acquisition or construction, together with the cost or assessed value of the site, and shall be a percentage of its cost equal to the rate of interest at which Government is borrowing money in the open market at the time of acquisition or construction, *plus* such allowance for maintenance and repairs as the local Government may fix

(*c*) Nothing contained in clause (*b*) above shall operate to prevent a local Government from—

(*i*) taking in any particular area a uniform percentage of emoluments, not exceeding 10 per cent., as rent from each Government servant supplied with a residence; provided that, if the uniform percentage taken is less than 10 per cent., the total amount of the standard rent fixed for all residences supplied in that area is thereby recovered; or

(*ii*) taking from any Government servant, who is in receipt of a compensatory allowance granted on account of dearness of living, a rent in excess of 10 per cent. of his emoluments.

(*d*) A local Government may make rules prescribing the principles on which rent shall be assessed in the case of Government servants who are supplied with residences in more than one station, or who, owing to the nature of their duties, occupy Government residences for a part only of the year; provided that—

(*i*) a Government servant, to whom more residences than one are allotted, shall not pay less rent for the total period of occupation in any one year than 10 per cent. of his emoluments for that period, or the total of the standard rents for the period of occupation of each house, whichever is less; and

(*ii*) a Government servant to whom a Government residence is allotted for a part only of the year shall not pay less rent than the amount calculated on that residence under clause (*b*) above for the period of occupation.

(*e*) A local Government may, in very special circumstances for reasons which should be recorded, waive or reduce the amount of rent to be recovered, or grant rent-free accommodation to Government servants who are required to occupy particular houses in order to ensure the proper performance of their duties.

(*f*) The limit of 10 *per cent.* prescribed under clause (*b*) and the uniform percentage of emoluments mentioned in clause (*c*) above have reference to the rent of the building only. Adequate additional rent should be charged for furniture, water-supply and sanitary, heating and electric installations, if these are supplied. Such charges should not be foregone, except in very special circumstances, for reasons which should be recorded.

46. *Honoraria.*—A Government servant may be granted an honorarium from general revenues, or permitted to receive an honorarium or a recurring or non-recurring fee from a private person or body, or from a public body, including a body administering a local fund, or from an Indian State, in return for work performed either within or outside the course of his ordinary duties, when the work is of such exceptional merit or of such an arduous or peculiar nature as to justify a special reward. The reasons for the grant of the honorarium or fee shall be recorded in writing by the sanctioning authority.

47. A local Government may make rules fixing the amounts which may be sanctioned as honoraria or fees by the authorities subordinate to it and specifying the conditions under which they may be granted or accepted.

Note.—This rule does not apply to the acceptance of honoraria or fees by medical officers in civil employ, which shall be governed by such orders as the Secretary of State in Council may issue in this behalf.

48. Any Government servant is eligible to receive without special permission (*a*) the premium awarded for an essay or plan in public competition, or (*b*) any reward offered for the arrest of a criminal or for information or special services in connection with the administration of justice; and also any remuneration or reward payable under any special or local law or in accordance with the provisions of any Act or regulation or rules framed thereunder.

CHAPTER VI.—COMBINATION OF APPOINTMENTS.

49. A local Government may appoint one Government servant to hold substantively, as a temporary measure, or to officiate in, two or more independent posts at one time. In such cases his pay is regulated as follows:—

(*a*) The highest pay, to which he would be entitled if his appointment to one of the posts stood alone, may be drawn on account of his tenure of that post;

(*b*) for each other post he draws such reasonable pay, in no case exceeding half the presumptive pay of the post, as the local Government may fix; and

(*c*) if a compensatory allowance is attached to one or more of the posts, he draws such compensatory allowance as the local Government may fix, provided that such allowance shall not exceed the total of the compensatory allowances attached to all the posts.

CHAPTER VII.—DEPUTATION OUT OF INDIA.

50. Unless the Secretary of State in Council by general or special order otherwise direct, no deputation of a Government servant out of India shall be sanctioned without previous reference to the Secretary of State in Council.

51. When a Government servant is with proper sanction so deputed, his pay and allowances shall, unless the Secretary of State in Council in any particular case otherwise direct, be regulated by the Governor General in Council as follows :—

(*a*) If the deputation is declared by the Governor General in Council to be under *quasi*-European conditions, the Government servant deputed shall be granted not more than two-thirds of the pay which he would draw if he were on duty in India. The Governor General in Council may relax the limit of two-thirds in the case of a Government servant of Indian domicile. A compensatory allowance also may be granted by the Secretary of State in Council if the deputation is to Europe or America, or in other cases by the Governor General in Council.

(*b*) If the deputation is declared not to be under *quasi*-European conditions, the emoluments of the Government servant deputed shall be determined by the Governor General in Council with due regard to the provisions of Rule 40 above as though a temporary post had been created.

CHAPTER VIII.—DISMISSAL AND SUSPENSION.

52. The pay and allowances of a Government servant who is dismissed from service cease from the date of such dismissal.

53. A Government servant under suspension is entitled to the following payments :—

(*a*) If a military officer in civil employ, to the pay and allowances of his military rank.

(*b*) In any other case, to subsistence grant.

54. When the suspension of a Government servant as a penalty for misconduct is, upon re-consideration or appeal, held to have been unjustifiable or not wholly justifiable ; or

when a Government servant dismissed or suspended pending enquiry into alleged misconduct is, upon re-consideration or appeal, reinstated :—

the revising or appellate authority may grant to him for the period of his absence from duty—

(*a*) if he is honourably acquitted the full pay to which he would have been entitled if he had not been dismissed or suspended and, by an order to be separately recorded, any allowance of which he was in receipt prior to his dismissal or suspension ; or

(*b*) if otherwise, such proportion of such pay and allowances as the revising or appellate authority may prescribe.

In a case falling under clause (*a*), the period of suspension or dismissal will be treated as a period spent on duty. In a case falling under clause (*b*), it will not be treated as a period spent on duty unless the revising or appellate authority so direct.

55. Leave may not be granted to a Government servant under suspension.

CHAPTER IX.—COMPULSORY RETIREMENT AND RESIGNATION OF OFFICE.

56. (*a*) Except as otherwise provided in this rule, a Government servant, other than a ministerial servant, is required to retire on attaining the age of 55 years. He may be retained in service after that age with the sanction of the local Government on public grounds, which must be recorded in writing; but he must not be retained after the age of 60 years except in very special circumstances.

(*b*) A ministerial servant may be required to retire at the age of 55 years, but should ordinarily be retained in service, if he continues efficient, up to the age of 60 years. He must not be retained after that age except in very special circumstances, which must be recorded in writing, and with the sanction of the local Government.

(*c*) The following are special rules applicable to particular services :—

(*i*) A member of the Indian Civil Service, who is not a judge of a Chief Court, must retire after 35 years' service counted from the date of his arrival in India ; provided that, if he has held

his post for less than five years, he may, with the sanction of the Governor General in Council, be permitted to retain it until he has held it for that period.

(*ii*) A member of the Indian Civil Service, who is a judge of a Chief Court, must retire on attaining the age of 60 years.

(*iii*) In the case of the officers specified in Rule 98 below, and of the Legal Remembrancer and Secretary to the Legislative Council of the Punjab if he fulfils the conditions prescribed in that rule, the age limit is 60 years.

(*iv*) A civil engineer in the Public Works or Railway Department must retire on reaching the age of 55 years, and may be required by the Governor General in Council to retire on reaching the age of 50 years if he has not attained to the rank of Superintending Engineer; provided that, in the case of Chief Engineers, the local Government may in special circumstances, which should be recorded in writing, grant an extension of service not exceeding three months.

(*v*) A civilian in the Superior Railway Revenue Establishment or the Superior Establishment of the Telegraph Department must retire on reaching the age of 55 years.

Note.—This sub-clause does not apply to members of the first and second divisions of the Superior Telegraph Traffic Branch (other than officers of the old Superior Telegraph Establishment), nor to those of the second division of the Superior Telegraph Engineering and Technical Branches, whose retirement is governed by clause (*a*) of this rule.

(*vi*) The following provisions are applicable to military officers in civil employ:—

(1) Officers of the Indian Medical Service must retire from civil employ at the age of 55 years, provided that—

1. a Director General of the Indian Medical Service may remain in service up to the age of 60 years;
2. Surgeons-General and Inspectors-General of Civil Hospitals may remain in civil employ up to the age of 57 years; and
3. Lieutenant-Colonels, specially selected for increased pay, who entered the service before the 1st April 1911, may remain in civil employ until they complete 30 years' service.

(2) Military officers in the Survey of India Department cease to be in civil employ on reaching the age of 55 years unless granted an extension by the Secretary of State in Council.

(3) Military commissioned officers serving in the Public Works or Railway Department cease to be in civil employ under the same conditions as govern the retirement of civil engineers of those departments. In addition, an officer of the Royal Engineers must retire on attaining the rank of General Officer; provided that, if he is holding a post of Chief Engineer, he may, with the sanction of the Governor General in Council, be permitted to complete a five years' tenure of the post, unless in the meantime he is required to vacate office under some other regulation.

(4) Military officers serving in any department, other than those mentioned in (1) to (3) of this sub-clause, cease to be in civil employ on reaching the age of 55 years; but any such officer, being a military commissioned officer and having held his post for less than five years, may for special reasons, with the sanction of the Governor General in Council, be permitted to retain it until he has held it for that period.

Note 1.—This rule does not apply to a Government servant who is appointed to any post by His Majesty the King Emperor of India, or by the Governor General in Council with His Majesty's approval.

Note. 2.—For the purpose of sub-clauses (*i*), (*vi*) (3) and (*vi*) (4) of clause (*c*) of this rule officiating tenure of a post shall be included in calculating the period of five years.

57. The resignation of his office by a member of the executive council of the Governor General, of a Governor or a Lieutenant-Governor shall take effect from the date following that of his embarkation at any port in India other than Aden, or from the date of expiry of five years' tenure of office, or from the date of his successor's entry upon office, whichever of

these dates be earliest. His five years' tenure shall begin from the date on which he first entered upon office, whether as a temporary member appointed in India or after the issue of His Majesty's warrant of appointment, but shall not include any period, other than a period spent on leave, during which he draws less than full pay.

PART IV.

CHAPTER X.—LEAVE.

Section I.—*Extent of Application.*

58. Unless in any case it be otherwise distinctly provided in section VI of this chapter, the rules in sections I to V of this chapter apply to all Government servants to whom the fundamental rules as a whole apply, provided that it shall be open to any person who is in Government service at the time when the fundamental rules come into force to exercise the option of remaining under the leave rules to which he has hitherto been subject. The intention of exercising this option must be specifically declared to the local Governments or the Governor General in Council, as the case may be, within six months of the date on which the fundamental rules come into force or, if the Government servant be on leave on that date, within six months of his return from leave. Every Government servant who does not make such a declaration will become subject to the rules in sections I to V of this chapter. The option once exercised is final.

NOTE.—A similar option may be exercised by the Government servants mentioned in rules 99 and 100.

59. Leave is earned under sections I to V of this chapter by a Government servant holding substantively a permanent post in civil employ, or holding a lien on such a post.

60. Leave is earned by duty only. For the purpose of this rule a period spent in foreign service counts as duty if contribution towards leave-salary is paid on account of such period.

61. A military commissioned officer appointed to a post in civil employ becomes subject to these rules under the following conditions:—

(*a*) (*i*) An officer subject, before such appointment, to the Indian Army Leave Rules, becomes subject to these rules from the date of first substantive appointment to a post in civil employ or from the date of completion of three years' continuous officiating duty in such service, whichever is earlier. In reckoning continuous duty—

(1) any period of foreign service, to which transfer was made direct from a civil post, may be included, and

(2) leave does not operate to break continuity unless the officer has to revert to military employ in order to obtain such leave.

Note.—This rule also applies to commissioned officers transferred from the Army Veterinary Department to the Civil Veterinary Department.

(*ii*) A continuous service officer of the Royal Engineers becomes subject to these rules from the date of his entry into permanent civil employ or from the date of his election for continuous Indian service, whichever is later.

(*iii*) A non-continuous service officer of the Royal Engineers, if he elects for these rules, becomes subject to them from the date of his entry into permanent civil employ or from the date of completion of five years' Indian service, whichever is later.

(*b*) Transfer from military service to a post in civil employ, the tenure of which is limited to a definite period, does not entitle an officer to leave under these rules.

62. Except as provided in rule 61, a military officer in civil employ remains subject to military leave rules.

63. When a military commissioned officer subject to these rules is temporarily transferred to military duty, but retains a lien on his post in civil employ, the period of his absence counts as duty for leave under these rules.

64. Unless in any case it be otherwise expressly provided by or under these rules, a Government servant transferred to a service or post to which these rules apply from a service or post to which they do not apply is not ordinarily entitled to leave under these rules in respect of duty performed before such transfer; but a Government servant reverting from duty as Judge of a High Court, or as one of the officers specified in rule 98 below, may count such duty for leave as though it were duty performed in a vacation department; all leave taken during the service concerned being treated as taken under these rules.

65. (*a*) A Government servant who resigns the public service or is discharged from it on reduction of establishment cannot, if re-employed after an interval, count his former service towards leave without the permission of the authority sanctioning the re-employment.

(*b*) A Government servant who is dismissed or removed from the public service, but is reinstated on appeal or revision, is entitled to count his former service for leave, unless the appellate or reviewing authority declares that he shall not so count it in whole or in part.

Section II.—*General Conditions.*

66. A local Government may make rules specifying the authorities by whom leave, other than special disability leave under rule 83, may be granted.

67. Leave cannot be claimed as of right. When the exigencies of the public service so require, discretion to refuse or revoke leave of any description is reserved to the authority empowered to grant it.

68. Leave ordinarily begins on the day on which transfer of charge is effected and ends on the day preceding that on which charge is resumed. When joining time is allowed to a Government servant returning from leave out of India, the last day of his leave is the day before the arrival of the vessel in which he returns at her moorings or anchorage in the port of debarkation. A local Government may, however, make rules defining the circumstances in, and the conditions on, which Sundays or other recognized holidays may be prefixed to leave or affixed to leave or joining time.

69. A Government servant on leave may not take any service or accept any employment without obtaining the previous sanction of—

(*a*) the Secretary of State, if the Government servant is residing in Europe, North Africa, America or the West Indies; and

(*b*) the Governor General in Council, or any lower authority empowered to appoint him, if he is residing elsewhere.

Note.—This rule does not apply to casual literary work, or to Service as an examiner or similar employment; nor does it apply to acceptance of foreign service, which is governed by rule 110.

70. All orders recalling a Government servant to duty before the expiry of his leave should state whether the return to duty is optional or compulsory. If the return is optional, the Government servant is entitled to no concession. If it is compulsory, he is entitled :—

(*a*) If the leave from which he recalled is out of India,—

(*i*) to receive a free passage to India;

(*ii*) to count the time spent on the voyage to India as duty for purposes of calculating leave; and

(*iii*) to receive leave-salary during the voyage to India, and for the period from the date of landing in India to the date of joining his post to be paid leave-salary at the same rate at which he would have drawn it had he not been recalled but returned in the ordinary course on the termination of his leave.

(*b*) If the leave from which he is recalled is in India, to be treated as on duty from the date on which he starts for the station to which he is ordered, and to draw travelling allowance for the journey, but to draw until he joins his post leave-salary only.

71. No Government servant who has been granted leave on medical certificate may return to duty without first producing a medical certificate of fitness in such form as the Governor General in Council, in the case of a Government servant on leave in Asia, or the Secretary of State in Council, in the case of a Government servant on leave elsewhere, may by order prescribe. A local Government may require a similar certificate in the case of any Government servant who has been granted leave for reasons of health, even though such leave was not actually granted on a medical certificate.

72. Unless he is permitted to do so by the authority which granted his leave, a Government servant on leave may not return to duty more than fourteen days before the expiry of the period of leave granted to him.

73. A Government servant who remains absent after the end of his leave is entitled to no leave-salary for the period of such absence, and that period will be debited against his leave account as though it were leave on half average pay, unless his leave is extended by the local Government. Wilful absence from duty after the expiry of leave may be treated as misbehaviour for the purpose of rule 15.

74. (*a*) Subject to any instructions which may be given by the Governor General in Council in connection with the control of the issue of money from treasuries or by the Auditor General in India in order to secure efficiency and uniformity of audit, a local Government may make rules prescribing the procedure to be followed in India—

(i) in making application for leave and for permission to return from leave,
(ii) in granting leave,
(iii) in the payment of leave-salary, and
(iv) in the maintenance of records of service.

(*b*) The procedure to be followed elsewhere than in India will be prescribed by the Governor General in Council.

Section III.—*Special and ordinary Leave Rules.*

75. The conditions governing admission to the benefits of the special leave rules shall be such as the Secretary of State in Council may by general order prescribe. All Government servants not so admitted shall be subject to the ordinary leave rules.

Section IV.—*Grant of Leave.*

76. A leave account shall be maintained for each Government servant in terms of leave on average pay.

77 (*a*) In the leave account of a Government servant, who on his entry into Government service becomes subject to these rules, shall be credited :—

(i) If he be under the special leave rules, five-twenty-seconds of the period spent on duty; and
(ii) if he be under the ordinary leave rules, two-elevenths of the period spent on duty.

(*b*) In the leave account of a Government servant who is already in Government service when he becomes subject to these rules shall be credited :—

(i) If he be under the special leave rules—
(1) the privilege leave which it would, on the date on which he becomes subject to these rules, be permissible to grant to him under the rules in force prior to that date : *plus*
(2) one-eighth of the period spent on duty or on privilege leave prior to that date : *plus*
(3) five-twenty-seconds of the period spent on duty subsequent to that date.

(ii) If he be under the ordinary leave rules—
(1) the privilege leave which it would, on the date on which he becomes subject to these rules, be permissible to grant to him under the rules in force prior to that date: *plus*
(2) one-twelfth of the period spent on duty or on privilege leave prior to that date : *plus*

(3) two-elevenths of the period spent on duty subsequent to that date.

(*c*) In the case of a military commissioned officer who becomes subject to these rules, the credit under (*b*) (i) (2) above shall be in respect of the period of his service in India.

Note.—A commissioned officer transferred from the Army Veterinary Department to the Civil Veterinary Department shall be considered, for the purposes of this rule, to have been subject to the Indian Army Leave Rules from the date of his arrival in India on his last tour of service

(*d*) Any other Government servant transferred permanently from military to civil employ is entitled to a credit to his leave account based on such portion of his military duty as, under the rules for the time being in force, is permitted to count for pension.

(*e*) A statutory civil servant or a Government servant who is subject, at the time when these rules come into force, to the Indian Service Leave Rules which were in force in January, 1920, is entitled to credit to his leave account, in addition to the periods admissible under clause (*b*) above, one-third of any period of leave on medical certificate taken under the former rules.

78. The amount of leave debited against a Government servant's leave account is—

(*a*) the actual period of leave on average pay, and

(*b*) half the period of leave on half or quarter average pay or on leave-salary equal to subsistence grant under the note to rule 88.

Note (1).—No privilege leave taken under the former Civil Leave Rules, or by a military officer under the British or Indian Army Leave Rules before coming under civil rules, is to be debited under (*a*) above.

Note (2) (*i*)—Under (*b*) above are to be debited—

(*a*) Furlough, leave on medical certificate and special leave with allowances taken under either the European Service Leave Rules or the Indian Service Leave Rules as they stood before these rules came into force.

(*b*) In the case of a military officer, leave in and out of India on less than full pay earned by service in India under the British or Indian Army Leave Rules, but the debit shall not exceed the credit given under rule 77 (*c*) above.

(*ii*) In the case of a member of the Indian Civil Service or a military commissioned officer subject to these rules, special leave with allowances taken under rules previously in force, and leave not due taken under these rules, up to a combined maximum of three months reckoned in terms of leave on average pay, shall not be so debited.

Note (3).—In cases covered by rule 77 (*d*), the leave taken during the period of duty on which the credit to the leave account is based is to be debited as prescribed in notes (1) and (2) above.

79. When a Government servant, who has previously been subject to the ordinary leave rules, is admitted to the benefits of the special leave rules no change shall be made in the amount of leave previously credited and debited to his account, but he shall be entitled to the maximum amount of leave prescribed in rule 81 (*a*) (*i*).

80. The amount of leave due to a Government servant is the balance of leave at his credit in the leave account.

81. Leave may be granted to a Government servant at the discretion of the authority entitled to grant the leave, subject to the following restrictions :—

(*a*) The maximum amount of leave which may be granted, expressed in terms of leave on average pay, is the privilege leave which it would be permissible to grant to the Government servant in question, on the date on which he becomes subject to these rules, under the rules applicable to him prior to that date : *plus*

one-eleventh of the period spent on duty subsequent to that date : *plus*—

(*i*) in the case of Government servants under the special leave rules, three years ; or

(*ii*) in the case of Government servants under the ordinary leave rules, wo and a half years.

(*b*) The maximum amount of leave on average pay which may be granted is:—

(*i*) To a Government servant under the special leave rules, eight months at any one time,
and, in all,—

the privilege leave which it would, on the date on which he comes under these rules, be permissible to grant to him under the rules applicable to him prior to that date: *plus*
one-eleventh of the period spent on duty subsequent to that date: *plus* one year.

(*ii*) To a Government servant under the ordinary leave rules, four months at any one time,
and, in all,—

the privilege leave which it would, on the date on which he comes under these rules, be permissible to grant to him under the rules in force prior to that date: *plus*
one-eleventh of the period spent on duty subsequent to that date: *plus* one year;
provided that, in the case of a Government servant subject to the ordinary leave rules, who either takes leave on medical certificate or spends his leave elsewhere than in India or Ceylon, the maximum prescribed in sub-clause (*i*) of this clause shall apply.

Note—In this case of a Government servant who is entitled, under orders previously in force, to privilege leave for more than four months, the number of months to be taken at one time prescribed in sub clauses (*i*) and (*ii*) above may be increased, on the first occasion when leave is taken under these rules, by the number of months by which the amount of privilege leave due exceeds four months.

(*c*) Leave not due may be granted subject to the following conditions:—

(*i*) on medical certificate, without limit of amount; and
(*ii*) otherwise than on medical certificate, for not more than three months at any one time and six months in all, reckoned in terms of leave on average pay.

(*d*) The maximum period of continuous absence from duty on leave granted otherwise than on medical certificate is twenty-eight months.

(*e*) When a Government servant returns from leave which was not due and which was debited against his leave account, no leave will become due to him until the expiration of a fresh period spent on duty sufficient to earn a credit of leave equal to the period of leave which he took before it was due.

82. The following provisions apply to vacation departments only:—

(*a*) A local Government may make rules specifying the departments or parts of departments which should be treated as vacation departments, and the conditions in which a Government servant should be considered to have availed himself of a vacation.

(*b*) Vacation counts as duty, but the periods of total leave in rules 77, 81 (*a*) and 81 (*b*) should ordinarily be reduced by one month for each year of duty in which the Government servant has availed himself of the vacation. If a part only of the vacation has been taken in any year, the period to be deducted will be a fraction of a month equal to the proportion which the part of the vacation taken bears to the full period of the vacation.

(*c*) In cases of urgent necessity, when a Government servant requires leave and no leave is due to him, the periods in rules 77 and 81 (*a*), as reduced by clause (*b*) of this rule, may be increased by one month for every two years of duty in a vacation department.

(*d*) When a Government servant combines vacation with leave, the period of vacation shall be reckoned as leave in calculating the maximum amount of leave on average pay which may be included in the particular period of leave.

83. (*a*) On the conditions specified in clauses (*b*), (*c*) and (*d*) of this rule, a local Government may grant special disability leave to a Government servant who is disabled by injury or illness—

(*i*) in the performance of any particular duty which has the effect of increasing his liability to injury or illness beyond the ordinary risk attaching to the civil post which he holds; or

(*ii*) in, or in consequence of, the due performance of his official duties or in consequence of his official position.

(*b*) The grant of special disability leave is subject to the following conditions :—

(*i*) The disability must be certified by a medical board to be directly due to the performance of the particular duties or to the holding of an official position.

(*ii*) The disability must ordinarily have manifested itself within three months of the performance of the duties or of the occurrence to which it is attributed, and the person disabled must have acted with due promptitude in bringing it to notice. The period of three months may be extended by the Governor General in Council if he is completely satisfied as to the cause of the disability.

(*iii*) The period of leave granted shall be such as is certified by a medical board to be necessary and shall in no case exceed two years. If leave for less than two years is granted in the first instance, it shall not be extended except on the certificate of a medical board.

(*iv*) Special disability leave may be combined with leave on average pay, if due, up to a maximum of four months of such leave, and with leave on half average pay if due and certified by a medical board to be necessary.

(*c*) If a Government servant has contracted such disability while serving with a military force, he shall, in the event of his discharge as unfit for further military service, be eligible for special disability leave on the conditions specified in clause (*b*) of this rule; provided that—

(*i*) he is not reported to be completely and permanently incapacitated for further civil service, and

(*ii*) any period of leave on medical certificate granted to him under military rules on account of the disability is reckoned as part of the period of two years up to which special disability leave may be granted.

(*d*) If a Government servant has contracted such disability during service otherwise than with a military force, special disability leave may not be given unless the injury or illness is, in the opinion of the local Government, so exceptional in character or in the circumstances of its occurrence as to justify such unusual treatment as the grant of this form of leave.

(*e*) Special disability leave may be granted if a disability contracted as in clause (*a*) of this rule is aggravated or reproduced in similar circumstances at a later date, but not more than two years of such leave shall be granted in consequence of any one disability.

(*f*) The period of leave will not be debited against the leave account and will count as duty in calculating service for pension

(*g*) Leave-salary on such leave will be equal to half average pay, subject to the maxima and minima prescribed in rules 89 and 90.

84. Leave may be granted to Government servants, on such terms as the Secretary of State in Council may by general order prescribe, to enable them to study scientific, technical or similar problems or to undergo special courses of instruction. Such leave is not debited against the leave account.

85. (*a*) In special circumstances and when no other leave is by rule admissible, extraordinary leave may be granted. Such leave is not debited against the leave account. No leave-salary is admissible during such leave.

(*b*) The authority which has the power to sanction leave may grant extraordinary leave as in clause (*a*) in combination with, or in continuation of, any leave that is admissible, and may commute retrospectively periods of absence without leave into extraordinary leave.

(c) When extraordinary leave is granted to a military officer subject to these rules, he will continue to be treated as in civil employ for all purposes until he is placed on military temporary non-effective pay by the order of a medical board. If, after being placed on military temporary non-effective pay, he returns to duty in India, he will have no claim to reinstatement in civil employ.

86. Leave granted to a Government servant should in no case extend more than six months beyond the date on which the Government servant must compulsorily retire, or, if a Government servant is retained in service after that date, more than six months beyond the date on which he ceases to discharge his duties.

Section V.—*Leave-salary.*

87. Subject to the conditions in rules 81, 88, 89 and 90, a Government servant on leave shall, during leave, draw leave-salary as follows :—

(a) If the leave is due, leave-salary equal to average pay, or to half average pay, or to average pay during a portion of the leave and half average pay during the remainder, as he may elect; and

(b) if the leave is not due, leave-salary equal to half average pay.

Note.—When a non-gazetted Government servant takes leave, his pay at the time of taking leave may be treated as his average pay for the purpose of this rule, if—

(i) his pay is less than Rs. 300, or

(ii) the leave taken does not exceed one month.

88. After continuous absence from duty on leave for a period of 28 months, a Government servant will draw leave-salary equal to quarter average pay, subject to the maxima and minima prescribed in rules 89 and 90.

Note.—A member of the Indian Civil Service or a military commissioned officer subject to these rules is entitled to leave-salary equal to subsistence grant after this period.

89. Except during the first four months of any period of leave on average pay, leave-salary is subject to the monthly maxima shown in the following table :—

—	*Average.*		*Half Average.*		*Quarter Average.*	
	Outside Asia.	In Asia.	Outside Asia	In Asia.	Outside Asia.	In Asia.
	£	Rs.	£	Rs	£	Rs.
Indian Civil Service and military commissioned officers subject to the special leave rules.	222	2,222	111	1,111	...	...
Other Government servants subject to the special leave rules.	200	2,000	100	1,000	60	600
Government servants subject to the ordinary leave rules.	150	1,500	75	750	60	600

Note 1.—The maximum of average pay does not apply in the case of a Government servant who is entitled, under orders previously in force, to privilege leave for more than four months during a period equal to that for which he is entitled to privilege leave.

Note 2.—The maximum of average pay does not apply to a Government servant serving in a vacation department during a period of leave on average pay equivalent to one month for each year since his last leave during which he has not availed himself of the vacation, and to a proportionate fraction of a month during which he has taken a part only of the vacation ; provided that, in the case of a Government servant who is transferred with leave to his credit from a non-vacation to a vacation department, the local Government shall decide, on the first occasion on which he takes leave after such transfer, the period not exceeding four months for which the maximum limit of leave-salary shall not be applied to him.

90. Subject to the condition that the leave-salary of a Government servant shall in no case exceed his average pay, leave-salary is subject to the monthly minima shown in the following table:—

—	*Half Average.*		*Quarter Average.*	
	Outside Asia.	In Asia.	Outside Asia	In Asia.
	£	Rs.	£	Rs.
Indian Civil Service and military commissioned officers subject to the special leave rules.	55½	555	...	...
Other Government servants subject to the special leave rules ...	33	333	16½	166
Government servants subject to the ordinary leave rules ...	25	250	12½	125

Note 1.—The minima specified above for Government servants other than members of the Indian Civil Service and military commissioned officers apply only when leave is taken or extended out of India.

Note 2.—In the case of a military commissioned officer, the minimum leave-salary during such leave as may be added under rule 77 (*b*) to the leave earned by duty under these rules shall be that prescribed by the military rules to which the officer was subject immediately before he came under these rules; and for an officer of the Royal Engineers who was serving under the Indian Army Leave Rules immediately before he became subject to these rules, the minimum shall be the rate prescribed by the leave rules for the Indian Army according to the length of his service for Indian pension. In the case, however, of an officer of the Royal Engineers who was serving under British Army Leave Rules immediately before he became subject to these rules, the minimum for so much of the leave credited as has been earned by service in civil employment shall be at the rate of—

(*i*) £55½ out of Asia and 555 rupees in Asia if he elected for continuous service in India before the 1st February, 1898; or

(*ii*) the amount shown in sub-clause (*i*) or the pay last drawn by him on duty, whichever is less, if he elects to come under civil leave rules after completing five years' service.

Note 3.—A military commissioned officer subject to these rules, who is granted leave on medical certificate in excess of the amount earned by him under both the civil and military rules, may be allowed the civil minimum rate of leave-salary for the period of leave taken in excess of the amount so earned.

91. A Government servant will ordinarily draw leave-salary in rupees if residing in Asia and in sterling if residing out of Asia. Leave-salary drawn in rupees must be drawn in India or, by a Government servant residing in Ceylon, in Ceylon. Leave-salary drawn in sterling must be drawn in London, or, at the Government servant's option, in any British Dominion or Colony which the Secretary of State in Council may by order prescribe; provided that, during the first part of any period of leave on average pay, up to a maximum of four months, a Government servant may, at his option, draw leave-salary in rupees in India, even if he be residing out of India. Leave-salary will be converted into sterling at such rate of exchange as the Secretary of State in Council may by order prescribe.

92. The rupee maxima and minima detailed in rules 89 and 90 are applicable to those Government servants only who reside in Asia during their leave, and the sterling maxima and minima to those who reside elsewhere.

93. A compensatory allowance should ordinarily be drawn only by a Government servant actually on duty, but a local Government may make rules specifying the conditions under which a Government servant on leave on average pay may continue to draw a compensatory allowance, or a portion thereof, in addition to leave-salary during the first four months of his leave. One of these conditions should be that the whole or a considerable part of the expense to meet which the allowance was given continues during leave.

Section VI.—*Exceptions and Special Concessions.*

94. The rules in sections I to V are not applicable to the following Government servants whose leave is governed by the Act or by rules made under other sections of the Act:—

(*a*) Members of the executive council of the Governor General or of a Governor or Lieutenant-Governor.

(*b*) The Chief Justices and other Judges of the several High Courts.

(*c*) The Bishops of Calcutta, Madras and Bombay.

(*d*) The Auditor-General in India.

95. Chaplains, including the Bishops of Lahore, Rangoon, Lucknow and Nagpur, are not subject to the rules in sections I to V of this chapter. Leave is granted to them under such rules as may be made in this behalf by the Secretary of State in Council.

96. The only form of leave which may be granted to a Lieutenant-Governor, whether substantive or officiating, is leave on medical certificate for not more than six months. On resuming his duties after such leave, he may receive leave-salary equal to half his pay for the period of absence. If he does not resume his duties, he may draw the leave-salary to which he would have been entitled under rule 97 had he vacated his post before taking leave.

97. When a member of the Indian Civil Service takes leave on vacating the post of Governor, Lieutenant-Governor or Chief Commissioner or of member of the executive council of the Governor General, or of a Governor or Lieutenant-Governor, his average pay shall be held to be subject to a maximum of 4,000 rupees. Such an officer will not retain, while on leave, a lien on the post which he has vacated.

98. The following provisions apply to pleader judges of the Chief Court of Lower Burma, and to barristers holding the posts enumerated below; provided that, in the case of barristers, they were, on first admission to Government service, appointed to some post in which the local Government has declared it to be necessary on public grounds to employ a barrister :—

(1) Judges of the Chief Court of Lower Burma.
(2) First Judges of Small Cause Courts of Presidency towns.
(3) The Secretary to the Government of India in the Legistative Department.
(4) A Judicial Commissioner or Additional Judicial Commissioner of Oudh or of the Central Provinces.
(5) The Administrator-General and Official Trustee in Bengal, Madras or Bombay.
(6) The Administrator-General, Official Trustee, Official Assignee and Official Receiver in Burma.
(7) A Chief Judge of the Court of Small Causes in Rangoon.
(8) An Additional Judicial Commissioner of Sind.

Such Government servants are entitled to leave on terms similar to those applied to Judges of High Courts by rules made under section 104 of the Act ; provided that—

(*a*) their leave-salary, while on furlough or on subsidiary leave, shall not exceed one-half of the pay which they drew at the time of taking leave ; and

(*b*) if holding one of the posts specified in items (3) to (7) above, they are entitled to leave on average pay, in lieu of the privilege leave admissible under the rules made under section 104, up to one-eleventh of the period of duty performed, on the same conditions as a Government servant serving in a vacation department.

99. The following law officers are entitled to leave under the rules applicable to members of the Indian Civil Service, provided that their pay as Government servants is fixed at a definite rate and that their whole time is retained for the service of Government :—

An Advocate General.
A Standing Counsel.
An Official Trustee or Assignee:
A Receiver of a High Court.
An officer of a High Court holding a post which by law can be held by a barrister only.
A Secretary or Assistant Secretary in the Legislative Department of a local Government.
A Remembrancer, Deputy Remembrancer or Assistant Remembrancer of Legal Affairs.
A Government Advocate or Assistant Government Advocate.
A Clerk of the Crown.
A Government Solicitor.

100. The following provisions apply to military officers in civil employ who remain subject to military leave rules :—

(*a*) Provided that it is prepared to re-employ him immediately upon the termination of the leave, a local Government may grant to such an officer leave of the following kinds :—

(*i*) leave on average pay, for four months at a time, up to one-eleventh of the period of duty performed, including uninterrupted duty in military service ; provided that, if privilege leave under military rules has been taken in any calendar year, duty counting for leave on average pay will not commence until the beginning of the following year or from the expiry of six months after the conclusion of such leave, whichever is earlier ; and

(*ii*) any leave, other than privilege leave, admissible under military rules, either alone or in combination with leave on average pay.

(*b*) The total period of leave should be regulated by the limits in force under the military rules to which the officer is subject.

(*c*) Leave may be retrospectively commuted by the authority which granted it into any other kind of leave which was admissible to the officer concerned at the time when it was granted.

101. A local Government may make rules regulating the grant to Government servants under its control of—

(*a*) maternity leave to female Government servants; and

(*b*) leave on account of ill-health to members of subordinate services specified in such rules whose duties expose them to special risk of accident or illness.

Such leave is not debited against the leave account.

102. A local Government may make rules regulating the grant of leave on account of ill-health to officers and seamen of Government vessels. Such leave is not debited against the leave account.

103. A local Government may make rules regulating the leave which may be earned by—

(*a*) temporary and officiating service ;

(*b*) service which is not continuous ; and

(*c*) part-time service, or service which is remunerated wholly or partially by the payment of fees or daily wages ;

provided that such rules shall not grant more favourable terms than would be admissible if the service were substantive, permanent and continuous.

104. During their period of probation or apprenticeship, probationers and apprentices are entitled to leave as follows :—

(*a*) If appointed under contract in the United Kingdom with a view to permanent service in India, or if appointed in the United Kingdom to posts created temporarily with the prospect, more or less definite, of becoming permanent ;—

(*i*) to such leave as is prescribed in their contracts, or, when no such prescription is made,

(*ii*) (1) when the period of probation is not less than three years, to the same leave which would be admissible if they held permanent posts ; or

(2) when the period of probation is less than three years, to leave on average pay up to one-eleventh of the period spent on duty, to which may be added, on medical certificate, leave on half average pay ; provided that the total leave granted under this clause shall not exceed three months reckoned in terms of leave on average pay ; and

(*b*) if appointed otherwise, to such leave as is admissible under rules framed on this behalf by the local Government, subject to the proviso in rule 103.

CHAPTER XI.—JOINING TIME.

105. Joining time may be granted to a Government servant to enable him—

(*a*) to join a new post to which he is appointed while on duty in his old post; or

(*b*) to join a new post,—

(*i*) on return from leave of less than four months' duration, or

(*ii*) when he has not had sufficient notice of his appointment to the new post, on return from leave other than that specified in sub-clause (*i*); or

(*c*) to travel from the port of debarkation and organize his domestic establishment when he returns from leave out of India of more than four months' duration; or

(*d*) on departure on or return from leave, to proceed from or to the place at which he is posted to or from specified stations, when the place concerned is in a remote locality which is not easy of access.

106. A local Government may make rules regulating the joining time admissible in each of the cases mentioned in rule 105 and specifying the places and stations to which clause (*d*) of that rule shall apply. Such rules should be framed with due regard to the time required for actual transit and for the organization of domestic establishment.

107. A Government servant on joining time shall be regarded as on duty and shall be entitled to be paid as follows:—

(*a*) If on joining time under clause (*a*) of rule 105, he is entitled to the pay which he drew prior to relinquishing charge of his old post, or the pay which he will draw on taking charge of his new post, whichever is less.

(*b*) If on joining time under clause (*b*) or (*c*) of rule 105 he is entitled—

(*i*) when returning from extraordinary leave, other than extraordinary leave not exceeding fourteen days granted in continuation of other leave; if a member of the Indian Civil Service or a military commissioned officer subject to the civil leave rules, to subsistence grant; otherwise, to no payments at all;

(*ii*) when returning from leave of any other kind; to the leave-salary which he last drew on leave at the rate prescribed for the payment of leave-salary in India:

Provided that the amount of half average pay to be drawn during joining time by a member of the Indian Civil Service or a military commissioned officer subject to the civil leave rules returning from leave on half average pay shall be calculated without regard to the limits prescribed in rule 89.

Note 1.—A military officer subject to the military leave rules who retains a lien on his civil post is entitled, on joining time under sub-clause (*ii*) above, to draw the same amount of leave-salary which he would have drawn had he taken leave under civil leave rules; provided that such leave-salary shall not be less than that which he actually drew during the last portion of his leave.

(*c*) If on joining time under clause (*d*) of rule 105, he is entitled to pay as though he were on duty in his post.

Note 2.—A ministerial servant on transfer is not entitled to be paid while on joining time unless his transfer is made in the public interests. A transfer made in consequence of his own misbehaviour does not fulful this condition.

108. A Government servant who does not join his post within his joining time is entitled to no pay or leave-salary after the end of the joining time. Wilful absence from duty after the expiry of joining time may be treated as misbehaviour for the purpose of rule 15.

PART VII.

CHAPTER XII.—FOREIGN SERVICE.

109. The rules in this chapter apply to those Government servants only who are transferred to foreign service after these rules come into force. Government servants transferred previously will remain subject to the rules in force at the time of transfer.

110. (*a*) No Government servant may be transferred to foreign service against his will.

(*b*) A transfer to foreign service outside India may be sanctioned by the Governor General in Council.

Note.—The Government of Madras is authorised to transfer to service in Ceylon any Government servant other than a member of an all India service.

(*c*) Subject to any restrictions which the Governor General in Council may by general order impose in the case of transfer to the service of an Indian State, a transfer to foreign service in India may be sanctioned by the local Government under which the Government servant transferred in serving.

111. A transfer to foreign service is not admissible unless—

(*a*) the duties to be performed after the transfer are such as should, for public reasons, be rendered by a Government servant, and

(*b*) the Government servant transferred holds, at the time of transfer, a post paid from general revenues or holds a lien on such a post.

112. If a Government servant is transferred to foreign service while on leave, he ceases, from the date of such transfer, to be on leave and to draw leave-salary.

113. A Government servant transferred to foreign service will remain in the cadre in which he held a post prior to his transfer, and may be given such substantive or officiating promotion in that cadre as the authority competent to order promotion may decide. In giving promotion, such authority will take into account—

(*a*) the nature of the work performed in foreign service, and

(*b*) the promotion given to juniors in the cadre.

114. A Government servant in foreign service will draw pay from the foreign employer from the date on which he relinquishes charge of his post in Government service. Subject to any restrictions which the Governor General in Council may by general order impose, the amount of his pay, the amount of joining time admissible to him and his pay during such joining time will be fixed by the authority sanctioning the transfer in consultation with the foreign employer.

115. While a Government servant is in foreign service, contributions towards the cost of his pension must be paid to general revenues on his behalf. If the foreign service is in India, contributions must be paid on account of the cost of leave-salary also. Such contributions shall be paid by the Government servant himself, unless the foreign employer consents to pay them. They shall not be payable during leave taken while in foreign service.

Note 1.—Pensions, throughout this chapter, include bonus if any payable to a Government servant's credit in a provident fund.

Note 2.—In the case of Government servants lent to His Majesty's Government or to British colonies or protectorates, the contribution is payable by the employer, except in the case of Government servants lent to the War Office, whose contributions are paid in accordance with special arrangements with the War Office.

116. Contributions will be calculated on the pay drawn in foreign service. In return for the contributions the Governor General in Council or the local Government, as the case may be, accepts the charge for the pension, and if the foreign service is in India the leave-salary of the Government servant. In calculating leave-salary and pension, the pay drawn in foreign service, less such part of it as may be paid as contribution, will count as pay for the purpose of rule 9 (*2*).

117. The rate of contributions payable on account of pension and leave-salary shall be such as the Governor General in Council may by general order prescribe.

118. In addition to the contributions prescribed under rule 117, subscribers to any of the following pension funds must pay to Government a contribution equal to one-fourth or one-sixth of the premium paid to the fund :—

(*a*) Bengal Uncovenanted Service Family Pension Fund. One-fourth.
(*b*) Bombay Uncovenanted Service Family Pension Fund—

(*i*) Subscribers who joined the fund on or before the 12th November, 1900 ... ... One-fourth.
(*ii*) Those who joined after that date ... ... One-sixth.

(*c*) Bengal and Madras Service Family Pension Fund ... One-sixth.

119. Subject to any general orders of the Governor General in Council, a local Government sanctioning a transfer to foreign service may—

(*a*) remit the contributions due in any specified case or class of cases, and
(*b*) make rules prescribing the rate of interest, if any, to be levied on overdue contributions.

120. A Government servant in foreign service may not elect to withhold contributions and to forfeit the right to count as duty in Government service the time spent in foreign employ. The contribution paid on his behalf maintains his claim to pension, or to pension and leave-salary, as the case may be, in accordance with the rules of the service of which he is a member. Neither he nor the foreign employer has any right of property in a contribution paid, and no claim for refund can be entertained.

121. A Government servant transferred to foreign service may not, without the sanction of the local Government, accept a pension or gratuity from his foreign employer in respect of such service.

122. A Government servant in foreign service in India may not be granted leave otherwise than in accordance with the rules applicable to the service of which he is a member, and may not take leave or receive leave-salary from Government unless he actually quits duty and goes on leave.

123. A Government servant in foreign service out of India may, unless special arrangements as to leave have been made on his behalf by the authority sanctioning his transfer, be granted leave by his employer on such conditions as the employer may determine. The leave-salary on such leave will be paid by the employer and the leave will not be debited against the Government servant's leave account.

124. A Government servant in foreign service, if appointed to officiate in a post in Government service, will draw pay calculated on the pay of the post in Government service on which he holds a lien and that of the post in which he officiates. His pay in foreign service will not be taken into account in fixing his pay.

125 A Government servant reverts from foreign service to Government service on the date on which he takes charge of his post in Government service ; provided that, if he takes leave on the conclusion of foreign service before rejoining his post, his reversion shall take effect from such date as the local Government on whose establishment he is borne may decide.

126. When a Government servant reverts from foreign service to Government service, his pay will cease to be paid by the foreign employer, and his contributions will be discontinued, with effect from the date of reversion.

127. When an addition is made to a regular establishment on the condition that its cost, or a definite portion of its cost, shall be recovered from the persons for whose benefit the additional establishment is created, recoveries shall be made under the following rules :—

(*a*) The amount to be recovered shall be the gross sanctioned cost of the service, or of the portion of the service, as the case may be, and shall not vary with the actual expenditure of any month.
(*b*) The cost of the service shall include contributions at such rates as may be laid down under rule 117, and the contributions shall be calculated on the sanctioned rates of pay of the members of the establishment.
(*c*) A local Government may reduce the amount of recoveries or may entirely forego them.

CHAPTER XIII.—SERVICE UNDER LOCAL FUNDS.

128. Government servants paid from local funds which are administered by Government are subject to the provisions of chapters I to XI of these rules.

129. The transfer of Government servants to service under local funds which are not administered by Government will be regulated by the rules in chapter XII.

130. Persons transferred to Government service from a local fund which is not administered by Government will be treated as joining a first post under Government, and their previous service will not count as duty performed. A local Government may, however, allow previous service in such cases to count as duty performed on such terms as it thinks fit.

RESOLUTION—No. 10076L.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency of Bengal for the year 1920-21.

The office of the Member, Board of Revenue, was held by Sir Charles Stevenson-Moore, Kt., C.V.O., up to the 7th May 1920, by Mr. F. J. Monahan from the 8th May to the 12th December 1920, and by Mr. D. H. Lees thereafter.

During the incumbency of Mr. Monahan, Mr. F. C. French, C.S.I., was appointed to be a temporary additional member to hear certain appeals and petitions of objections against orders passed by Mr. Monahan as the Commissioner of the Presidency Division.

2. The uneven distribution of rain affected the crops in the Burdwan, Presidency and Dacca Divisions, and the year was marked by disastrous floods in Midnapore district and by the destruction of crops in a part of Khulna district through an inundation of salt water. Relief operations in the former district were concluded by the end of September 1920, but in Khulna district relief is still necessary, and the condition of the people in the affected area gives cause for anxiety. The failure of co-operation between landlords and tenants in the maintenance of embankments is given as one cause of the present situation, but it is reported that a more liberal spirit is now being shown by the landlords. The Governor in Council desires to take this opportunity of thanking those who have taken part in the relief of the distress in this ditrict.

3. Much useful information is given in the sections of the report which deal with the collection of land revenue and other revenue work, but there is little which calls for comment. Collection of the land revenue was good, and it is satisfactory to note that mainly owing to new and revised settlements in temporarily settled and Government estates, the current demand of land revenue has increased by 2¼ lakhs.

The colonisation of the Sundarbans in the district of Bakarganj made good progress. The policy of reclamation by Government and direct settlement with cultivators, which has been followed in recent years, has proved successful. Not only is the money invested in reclamation likely to bring in a good return in the shape of increased revenue, but the excellent progress made by the many co-operative credit societies in the colonised area bears witness to the prosperity of the cultivators who have been settled on the land.

4. In commenting on the working of the Bengal Tenancy Act, the Board of Revenue have again noted that relations between landlords and tenants were generally marked by an absence of cordiality, and were actually strained in many places, the most common causes being the levy of abwabs, enhancement of rent and disagreement as to standards of measurement. In the district of Nadia, where a record-of-rights is now being prepared, it has been found that with the honourable exception of Maharaja Kshaunish Chandra Ray Bahadur of Nadia, all the bigger landlords realise extensive abwabs. It is noteworthy that in spite of this general exaction of abwabs, no suit was instituted during the year under section 75 of the Bengal Tenancy Act, and the opinion of the Board that these illegal exactions have almost become customary indicates the necessity of providing a more effective remedy than that provided by this section. His Excellency in Council trusts that the Committee, which is now considering the amendment of the Bengal Tenancy Act, will be able to find a satisfactory solution of this and the other difficulties which have been found to exist in the present law.

5. The thanks of the Governor in Council are due to the Board for their efficient administration of the Land Revenue Department.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal (offg.).

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR OCTOBER 1921.

I. **Character of the Season.**—During the month under review the rainfall was defective throughout the Province except in the districts of Jalpaiguri, Rangpur, Mymensingh, Cooch Behar and in those of the Chittagong Division, where the fall was in excess of the normal. The usual rainfall statement is appended.

II. **Progress of Agricultural Operations.**—The steeping and washing of jute were finished. Preparatory tillage for spring crops was progressing briskly. Sowing of pulses was completed and that of potatoes and oilseeds commenced during the last part of the month. During the early part of the month rainfall was beneficial to winter paddy, but later on rain was urgently required to help the flowering of late transplanted paddy in parts of North and West Bengal.

III **State of Standing Crops.**—The condition of winter paddy was generally reported to be satisfactory except in parts of North and West Bengal where absence of rain adversely affected the crop.

IV. **Prospects and Probable Outturn.**—The prospects of winter paddy were generally favourable except in the high land tracts of North and West Bengal.

V. **Damage to Standing Crops.**—Some damage to paddy by drought was caused in parts of the Burdwan Division.

VI. **Condition of Agricultural Stock.**—Sporadic cases of cattle disease were reported from six districts.

VII. **Failure of Pasturage and Fodder.**—No scarcity of fodder was felt anywhere in the Province.

VIII. **Prices of Food-grains.**—During the second fortnight of the month under review the price of common rice of the cheapest quality rose in one district only, fell in fifteen and remained stationary in the rest of the Province. It ranged from 5½ seers per rupee at Hooghly to 10 seers at Jessore.

IX. **Condition of Agricultural Population.**—The condition of the agricultural population throughout the Province was fair except in the district of Khulna where distress existed during the month. Gratuitous relief was given in the affected tracts.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to empower the Government of Bengal to authorise surveys and the carrying of aerial ropeways over private property; to provide for compensation to the owners of such property; and to ensure the safe and efficient working of the ropeways when constructed.

NOTES ON CLAUSES.

Clause 1.—The proposed Act will extend to the whole of Bengal, except the Hill-tracts of Chittagong: but power has been taken to bring the Act into operation in the Darjeeling district only on such date and subject to such exceptions and modifications as the Governor in Council may direct.

Clause 3.—The Local Government are empowered, on application by a promoter, to make an order authorising him to construct an aerial ropeway for the carriage of goods, goods and passengers, or passengers only. But before making such an order public notice of the proposed order is to be given, and any objection or suggestion will be considered. The order is to contain the particulars specified in sub-clause (*2*).

Clause 4 enumerates the particulars which must be contained in an application for an order referred to in clause 3.

Clause 5 provides that unless a promoter complies with certain particulars in an order to construct an aerial ropeway, the powers given to the promoter by the order shall cease to be exercised.

Clause 6 enables the Local Government to sanction the opening of an aerial ropeway for the public carriage of passengers, although the construction of the ropeway has been authorised in the first instance for the public carriage of goods only.

Clause 7 provides that before an aerial ropeway is opened for any kind of traffic an inspection of the ropeway must be made by an Inspector.

Clauses 8 and 9 contain provisions dealing with the appointment of Inspectors, their powers and duties. These clauses are based on sections 5 and 6 of the Indian Railways Act, 1890.

Clause 10.—This clause is taken from section 6 of the Indian Railways Act, 1890, and provides that the promoter and his servants and agents must afford reasonable facilities to an Inspector for the due performance of his duties.

Clause 11.—This clause, which is based on section 7 of the Indian Railways Act, 1890, gives authority to the promoter to execute all necessary works for the construction of an aerial ropeway. It also provides that the Collector shall fix the amount of compensation, or of annual rent, or of both, which he thinks should be paid by the promoter to the owner or occupier of any immovable property affected by such works.

Clause 12 corresponds to sections 9 and 10 of the Indian Railways Act, 1890. It gives authority to the promoter to enter upon any immovable property adjoining an aerial ropeway for the purpose of repairing such ropeway or of preventing any accident. It also provides for payment of compensation by the promoter for any damage caused by such entry.

Clause 13 provides for the removal of trees, structures or objects which interfere with an aerial ropeway, and for the payment of compensation for the removal of trees which were in existence before the construction of the ropeway.

Clause 15 corresponds to section 24 of the Bengal Tramways Act, 1883 and enables the promoter to fix the rates for the carriage of goods or passengers on the aerial ropeway.

Clause 16 is based on section 42(*2*) of the Indian Railways Act, 1890, and provides that the promoter shall work the ropeway without giving any undue or unreasonable preference to any particular person or any particular description of traffic.

Clause 17.—This clause is based on section 83 of the Indian Railways Act, 1890, and provides for the method of reporting certain accidents occurring in the course of working an aerial ropeway.

Clause 18.—This clause, is based on sections 23(*1*) and 24 of the Indian Railways Act, 1890. It enables the Local Government to close an aerial ropeway to all traffic or to any specified class of traffic if the use of the ropeway is likely to be attended with danger to the public. Any ropeway closed to any traffic under this clause is not to be re-opened until sanctioned by the Local Government.

Clause 19, which is based on section 39 of the Bengal Tramways Act, 1883, provides that if the promoter discontinues the working of an aerial ropeway for three months without sufficient reasons, the Local Government may declare that the powers of the promoter in respect of such ropeway shall be at an end.

Clause 20, which is also based on section 39 of the Bengal Tramways Act, 1883, provides that the Local Government may remove such ropeway after two months from the date of the cessation of the promoter's powers.

Clause 21, which corresponds to section 40 of the Bengal Tramways Act, 1883, enables the Local Government to bring the powers of the promoter to an end in case he is insolvent or is unable to maintain the ropeway, and authorises the Local Government to remove it.

Clause 22.—This clause is based on section 47 of the Indian Railways Act, 1890. It provides for the making of by-laws in connection with the administration of the proposed Act; a suitable penalty being prescribed for the breach of any by-law. The power to make by-laws is subject to previous publication in a manner to be prescribed.

Clause 23, which corresponds to section 52 of the Indian Railways Act, 1890, deals with the submission of returns of capital, receipts and traffic, at suitable intervals.

Clause 24.—This clause provides that in the course of the construction, repair, working or management of an aerial ropeway, no promoter shall cause any permanent injury to any public road, railway, tramway or waterway, or permanently obstruct the traffic thereon. It is based on section 31 of the Indian Electricity Act, 1910.

Clause 25, which is based on section 57 (*2*) of the Indian Electricity Act, 1910, provides for the compulsory acquisition of land required for the purpose of constructing, working or managing an aerial ropeway.

Clause 26 is the rule-making clause. It makes previous publication of the rules necessary.

Clause 27, which corresponds to section 27 of the Indian Tramways Act, 1886, and section 29 of the Bengal Tramways Act, 1883, provides a penalty for the failure of the promoter to comply with the provisions of the Act.

Clause 28, which is based on section 20 of the Indian Tramways Act, 1886, provides a penalty for unlawfully obstructing any person when constructing, maintaining, altering, repairing or working an aerial ropeway, or for injuring or destroying any mark indicating the line or route of the ropeway.

RESOLUTION—No. 4551Agri

The Hon'ble

Khan Bahadur, C.I.E.,
Minister in charge

READ—

The Report of the Department of Agriculture, Bengal, for the year 1920-21.

The principal change in the administration of the Department of Agriculture during the year under review was the transfer of control from the

Revenue Department of the old Government to the Ministry of Agriculture and Public Works under the Reformed Government.

For the first three months of the year, Mr. R. S. Finlow officiated as Director of Agriculture in addition to his own duties as Fibre Expert. He was relieved on the 5th July 1920 by Mr. G. Evans, C.I.E., who was selected by Government to succeed Mr. Milligan as the permanent Director. A new post of second Economic Botanist was sanctioned during the year, and Mr. D. Dutta, Superintendent of Agriculture, was appointed to officiate in it. In the Sericultural section, three new appointments, viz., the Deputy Director of Sericulture, the Second Superintendent of Sericulture and the Sericultural Research Expert, were created. As in previous years, there were three Deputy Directors for the five civil divisions. The necessity of having a Deputy Director for each division has been recognised for some time past, and the Government have applied for the sanction of the Secretary of State to the creation of two new posts of Deputy Director. In view of the expanded programme of work now under contemplation, an increase in the subordinate staff employed on demonstration work has also become necessary.

2. There were 42 students from Bengal at the Agricultural College at Sabour, of whom 18 appeared in the final examination and 11 passed. Five students received scholarships from Government and seven from district boards. The first batch of students at the Agricultural Vernacular School at Dacca will complete their course in December next. A school of the same type was opened at Chinsura in February 1921, but only 12 students were on the roll at the close of the year. The paucity of pupils is attributed to the non-co-operation movement. The object of Government in opening these schools was to provide a practical education in modern agricultural methods for the sons of cultivators who would apply what they learned in the cultivation of their own holdings. Experience has now shown that these schools are not altogether suitable. The principal drawback is that they are much too costly. If agricultural education is to spread among the masses, it is essential that the schools should be within easy reach of the cultivators. Numerous schools, each serving a comparatively limited area, must therefore be established, and this can only be accomplished if a cheap type of school is devised. It has therefore been proposed that the schools at Dacca and Chinsura should be converted into secondary agricultural schools, where *gurus* and demonstrators, and also cultivators desiring a higher agricultural education, would be trained, while for elementary agricultural education a cheaper type of school should be evolved. A scheme for such schools is now engaging the attention of the Hon'ble Minister.

An area of 300 acres has been acquired adjacent to the Dacca Agricultural Farm for the Agricultural Institute. The scheme has received the administrative sanction of Government, and building operations will commence as soon as funds are available.

3. The research work of the department is divided into the Fibres, Botanical and Chemical sections. In the Fibres section, Mr. Finlow continues to devote most of his time to jute, though flax, hemp and other fibres have also received attention. The success of the *Kakya Bombai* variety of jute is well-known. But two new races, R 85 and D 154, are expected to prove superior to *Kakya Bombai* as they give a somewhat better yield and are immune from the attacks of *chlorosis*. This disease is now being investigated by the Fibre Expert, in collaboration with the Economic Botanist. The Botanical section is testing three new varieties of *aman* paddy and is investigating the problem of early paddies for the high lands of Bankura and Birbhum. Cotton is also receiving attention, but experience has shown that long-staple cotton as a rains crop is not likely to be a commercial success in Bengal. Experiments with cold weather cotton will be initiated this year. In the Chemical section, work on the soil survey of the province has had to be curtailed owing to shortage of staff, but the analysis of soils from the new Government farms has been carried out, and very important work in connection with tobacco has been started. This includes an investigation into the

manuring of the crop and a study of the various methods of curing and fermenting the leaf.

4. It is the aim of Government to provide every district with an agricultural farm where new varieties of crops and manures will be tested and adapted to local conditions and which will form a centre for all the agricultural work of the district. The Hon'ble Minister agrees with the Director of Agriculture that there should also be a central experimental station in each division at which experimental work of a high order can be conducted; and he recognises that the department is seriously handicapped at present in its experimental work by having only two such stations at Dacca and Chinsura. The provision of additional experimental stations must, however, await an improvement in the financial position. Meanwhile, as a temporary measure, arrangements are being made to conduct some experimental work on the Rajshahi Farm.

5. It is a satisfactory feature that the Director is able to report a considerable increase of public interest in agricultural matters and in the work of the department. An indication of this is the remarkable demand for departmental seed. In the Dacca Division, for instance, applications were received for 5,000 maunds of *Kakya Bombai* jute seed against an available supply of 800 maunds. There was also a keen demand for seed of the *Kataktara* and *Indrasail* varieties of paddy. It is obvious that the seed which the district farms will be able to supply will be quite insufficient to meet the needs of the cultivators. The Director has, therefore, drawn up a scheme for utilising private agencies for the propagation and distribution of departmental seed. The central experimental stations will supply seed to the district farms. These in turn will distribute it to private farms established through the agency of zamindars, khas mahals, Court of Wards' estates and co-operative agricultural associations. The seed will be propagated for a further period in these farms before distribution to the cultivators. The Hon'ble Minister is glad to learn that satisfactory progress in the organisation of these private farms has already been made, and looks forward with interest to the detailed report on their working which is promised for next year.

6. The demonstration work of the department is by no means confined to jute and paddy. Many varieties of sugarcane from all parts of the world have been tested, and the *Yellow Tanna* variety, which has proved itself pre-eminently adapted to the conditions of Bengal, has achieved a wide popularity. Every effort is being made to increase the supply of seed of this variety to meet the large demand which exists. Tobacco is also an important item in the demonstration programme, and the cultivation of the Sumatra variety has been rapidly extended in Rangpur. The Minister attaches great importance to the formation of a co-operative sale society among the cultivators of tobacco as he is convinced that this is the best method of securing for the cultivators a good price for their crop. He trusts that the efforts which are being made to establish such a society will meet with a full measure of success. Other crops which are receiving attention include groundnuts, wheat and potatoes, and the use of manures is also being popularized by the demonstrations of the department.

7. The cattle-breeding experiments on the Rangpur cattle farm continued to make progress. The herd is divided into two sections. In the one selected local cows breed from a Hissar bull. and in the other from the best local bulls available. The milk yield of each cow is carefully recorded, and those which give a poor yield are eliminated from the herd. Several generations will have to be bred before definite results can be expected, but the half-bred Hissar bulls are at present showing distinct signs of improvement over the local animals.

8. During the year considerable attention was paid to the formation of village agricultural associations, and their rapid expansion affords further evidence of the increase of popular interest in the work of the department. In order to secure the permanence of these associations, and to give each member a personal interest in their success, the Minister has decided

that they should in future be organised as far as possible on a co-operative basis. Associations or small groups of associations will be registered as co-operative agricultural societies under the Co-operative Societies Act, and share capital will be raised. These societies will not only engage in such activities as the supply of seed and manure to members, but will also be in a position to undertake the more complicated forms of agricultural improvement such as irrigation and drainage projects and the joint purchase and sale of agricultural machinery.

9. The Sericultural branch of the department continued to do important work during the year under review. The demand for seed cocoons greatly exceeded the supply. Owing to a shortage of the mulberry crop which was affected by drought and to an accidental outbreak of muscardine at one of the nurseries, the total receipts from the nurseries amounted only to Rs. 77,286 as against Rs. 84,185 in the previous year. In spite of this, it is estimated that the department supplied 29 per cent. of the total seed requirements of the province. The increasing demand for sericultural education is an indication that the cultivators appreciate the value of the work that is being done by the department. The Minister in charge takes this opportunity of acknowledging the good work of Rai Sahib A. C. Ghosh, Superintendent and officiating Deputy Director of Sericulture, who has retired since the close of the year after being in charge of the sericultural work of the department from 1907.

10. The report is a record of continued progress and good work. The Hon'ble Minister desires to congratulate Mr. Evans on his successful administration of the department during his first year of office.

His acknowledgments are also due to Mr. Finlow for his excellent work both in his capacity of Fibre Expert and as officiating Director, to the other officers of the department whose services Mr. Evans has brought to notice, and to the large number of gentlemen, both official and non-official, who have rendered assistance to the department.

By order of the Government of Bengal
(Ministry of Agriculture and Public Works),

J. A. L. SWAN,
Secretary to the Government of Bengal.

AMENDMENT OF THE CALCUTTA ELECTRIC LICENSE, 1907.

GOVERNMENT OF BENGAL.

COMMERCE DEPARTMENT.

Commerce.

CALCUTTA, THE 28TH NOVEMBER 1921.

RESOLUTION—No. 5304Com

READ—

Letter from the Chairman of the London Board of the Calcutta Electric Supply Corporation, Limited, dated the 30th December 1920, asking for an alteration of clause 10 of the Calcutta Electric License, 1907, which fixes the different periods at the end of which the option of purchasing the undertaking can be exercised, and the criticisms and objections submitted in connection therewith by the Corporation of Calcutta in their letter No. S-1619, dated the 15th July 1921, and by the local authorities and Government officials concerned.

READ ALSO—

The remarks of the Calcutta Electric Supply Corporation on the letter of the Calcutta Corporation mentioned above.

Under clause 10 of the Calcutta Electric License, dated the 25th July 1907, the next option of purchasing the undertaking will accrue in 1928 and subsequent options at intervals of ten years thereafter. The Calcutta Electric Supply Corporation, Limited, addressed the Government of Bengal in their letter of the 30th December 1920, cited above, representing that they found it difficult to raise the further capital necessary for the development and improvement of their business to meet the growing needs of the public, owing to the fact that their existing license is liable to termination in 1928 and that the consequent uncertainty of tenure deters capitalists from investing money in the undertaking. They requested therefore that clause 10 of the license might be altered so as to provide that the next option of purchasing the undertaking should be exercisable in 1938 instead of in 1928 and successive options at intervals of 20 years thereafter.

2. The Calcutta Electric Supply Corporation's proposal was duly notified for public criticism and the officers and local authorities concerned were consulted. Opinions both in support of and against the application were received by the Government, the most important being that of the Corporation of Calcutta. They expressed themselves as opposed to the extension of the period of the option of purchase to twenty years as a general rule. They stated, however, that they had no objection to the next option being exercisable in 1938, provided that the Calcutta Electric Supply Corporation agreed in their turn to make certain concessions in the interests of the general public.

3. The Calcutta Electric Supply Corporation were given an opportunity of considering the Calcutta Corporation's proposals and their reply has now been received. With regard to the Calcutta Corporation's complaint in connection with the frequent opening of roads for the purpose of handling electric mains, the Electric Supply Corporation have promised to instruct their staff to make every effort to mitigate the inconvenience complained of. They have, however, expressed their inability to accept the other stipulations suggested by the Calcutta Corporation.

4. The first of these was that the Electric Supply Corporation should make a substantial reduction in their rates for current and should remove forthwith the surcharge of 15 per cent. which they have been levying since

the 1st January 1921. The question of the surcharge also formed the subject of a debate in the Bengal Legislative Council last August, when a resolution was carried asking Government to take steps for its removal. The Electric Supply Corporation, in expressing their inability to agree to this condition, have observed that their present rates are lower than those of any other supply company in England or India, that the figures of their dividends do not show that they have been making undue profits, and that on the London Stock Exchange, while their ordinary shares are at a small premium, their preference shares stand at a considerable discount. They go on to say :—

"Minor difficulties apart, the chief reason against the extension appears to be a belief in the minds of the Corporation that this Company is maintaining a high rate of charges in order to distribute excessive dividends among its shareholders. I am to explain that this is an entire misconception. It is probably based on the fact that, for the year 1919, a bonus of certain preference shares was distributed among the ordinary shareholders. On the strength of this, the dividend for that particular year has occasionally been described as amounting to 20 per cent which is wholly incorrect On the London Stock Exchange the bonus is more accurately treated as equivalent to a recurring addition of per cent. to the ordinary dividends. In actual fact the bonus represented part of the premiums realised from previous share issues and had not been contributed by the consumers in India. But in any case the bonus was in the last degree exceptional and should not be treated as a typical feature of the yield of this Company's shares. The return to the proprietors is 5 per cent. (free of income-tax) on the preference shares, while the Directors aim at a steady average of 10 per cent. (subject to income-tax) on the ordinary shares. The latter figure was not reached until 1917, and in 1918 and again in 1920, it was possible to add a small bonus of 1 per cent. Even with this addition the average yield on the share capital as a whole is just under 9 per cent."

They also remark—

"I need not overload this letter by quoting the prices which are charged by the larger supply companies in England; they are without exception higher than our rates, and have a tendency to rise rather than to fall. The true facts regarding this Company are: first, that the current supplied for industrial purposes is sold at the bare cost of production and distribution; second, that the rates for domestic consumption have been steadily reduced as and when the circumstances of the Company permitted; and third, that the charges now prevailing are among the lowest, if not the lowest, imposed by any large supply company in any country. The supply is remarkably cheap and has been brought down to its present price by years of careful and economical management. The surcharge which is now temporarily in force is as much regretted by my Board as by any one, and they are pledged to remove it at the earliest possible opportunity. But the circumstances in which it was imposed left the Directors no option. Immediately after the normal charges were reduced to their present level, there came a rise in wages, as well as in all the materials of production, with which the Corporation is no doubt only too familiar. It might have been practicable to meet this heavy burden upon our resources if it had not been for the simultaneous rise in the price of coal, which made it absolutely impossible for us to carry on work without increasing our charges. Electricity cannot be generated in Calcutta without coal; and the cost of coal is an important factor in our working expenses. The only hope of being able to dispense with the recent surcharge lies in such an extension of our supply as will permit of a reduction in the ratio of our working charges This in turn is only possible if we can raise adequate capital to finance the necessary additional plant. Everything, therefore, comes back to the necessity of putting the Company in a position to make its securities attractive to the right type of investor."

5 The Calcutta Corporation's second stipulation was that a sliding scale of dividends corresponding to the rate charged for current should be introduced. With regard to this condition, the Electric Supply Corporation correctly point out that a sliding scale is applied to *power* companies, which supply current in bulk to local bodies for distribution and sale by them as a municipal enterprise, while the purchase clause is restricted to *supply* companies, which manufacture and distribute current in detail, and that the purchase clause and the sliding scale clause are never combined.

6. The Calcutta Corporation's third stipulation was that the Calcutta Electric Supply Corporation should agree to the appointment of a local board of control on which the former Corporation should be represented. The Calcutta Electric Supply Corporation are not prepared to give controlling powers to a local board, but state that they would welcome the assistance of a thoroughly representative Advisory Council in Calcutta.

7. The matter with which the general public is mainly concerned is the question of the rates charged for current and specially the surcharge of 15 per cent. which has been levied from the beginning of the present year. It has been ascertained that the Calcutta Electric Supply Corporation's present rates for the supply of electricity are considerably lower than those of any other large supply Company either in England or in India. The Governor in Council feels that, if this fact is more generally known, most of the objections raised would be removed. He does not think that any useful purpose would be served by entering into a detailed discussion of the other arguments. It appears to His Excellency in Council that Government are faced with two alternatives, viz, (*a*) either to refuse the application of the Calcutta Electric Supply Corporation altogether or (*b*) to grant, in spite of the protests received, a postponement until 1938 of the next period at which the option of purchase may be exercisable. After a careful consideration of the matter His Excellency in Council is of opinion that the adoption of the first alternative is likely seriously to cripple the activities and development of the Electric Supply Corporation to the ultimate disadvantage and inconvenience of the general public. His Excellency in Council has therefore decided to grant a postponement until the 20th October 1938 of the first period at which the right of purchase of the undertaking may be exercised but to make no alteration in the subsequent periods of option and to impose no further conditions. He has no doubt that this decision is in the best interests of the Calcutta public, since the grant of this concession will enable the Electric Supply Corporation to take early measure to secure greater convenience for their customers, and he trusts that they will lose no time in constituting, in consultation with the Calcutta Corporation, a representative advisory committee which will keep them in touch with the needs and legitimate demands of the public.

8. A notification under section 4 (*3*) (*b*) of Act IX of 1910 giving statutory effect to the above decision will be published in an early issue of the *Calcutta Gazette*.

ORDER.—Ordered that the above resolution be published in the *Calcutta Gazette* and copies forwarded to the Calcutta Electric Supply Corporation, Limited, the Corporation of Calcutta and other local authorities concerned through the Commissioners of Divisions for information.

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORTS BY THE PORT OFFICERS, CALCUTTA AND CHITTAGONG, FOR THE YEAR 1920-21.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 28TH NOVEMBER, 1921.

RESOLUTION—No. 3912Marine.

READ—

(1) Annual Report by the Port Officer, Calcutta, for the year 1920-21.

(2) Annual Report by the Port Officer, Chittagong, for the year 1920-21.

Port of Calcutta.

Bengal Pilot Service.—At the end of the year 1920-21, there were 68 pilots including leadsmen apprentices, on the list, against the sanctioned strength of 74. The number on leave was 13. Six leadmen apprentices were appointed during the year and one Branch Pilot retired. The system of the guaranteed minimum remuneration of pilots was continued during the year.

Vessels piloted.—The number of vessels piloted inwards was 1,469 with a gross tonnage of 6,534,597 and outwards 1,123 with a gross tonnage of 6,292,653, against 1,124 and 1,102 with gross tonnages of 4,788,616 and 4,687,163, respectively, in the previous year.

The number of vessels of 21 feet draught and over was inwards 319 and outwards 850, against 355 and 720 respectively, during last year. Five vessels were neaped outwards for want of sufficient depth of water over the bars and none inwards during the year as compared with none in 1919-20. Twenty-four vessels were detained at the Sandheads for want of pilots; none was detained in the preceding year. The detention was due to a large number of in-coming ships arriving at a time when the port was abnormally congested and departures were delayed, thereby making it difficult to keep the pilot station at the Sandheads adequately supplied with pilots. It is satisfactory to note that in no case did the detention exceed one day. One hundred and one and 212 vessels were detained at Diamond Harbour and the Sandheads, respectively, on account of congestion at the port due to labour strikes.

Pilotage receipts.—The receipts from pilotage fees were Rs. 13,79,343. The figures for the two previous years were Rs. 10,80,472 in 1919-20 and Rs. 10,12,871 in 1918-19.

Casualties to vessels.—The numbers of groundings and collisions were 26 and 2, respectively, against 35 and 8 during 1919-20. One vessel was lost subsequent to her grounding.

Seventy-two preliminary enquiries were held by the Port Officer to investigate casualties to both sea-going and inland vessels, against 88 in the previous year, and 16 of these cases were referred to Special Courts of Enquiry, the same number as last year.

Examinations.—Sixty-three candidates out of 152 passed the Examinations for Master, Mate or Engineer and were granted Colonial or Home-trade Certificates of Competency. One hundred and forty-seven candidates out of 578 obtained Certificates of Competency as Master, Serang, Engineer

or Engine-driver under the Inland Steam-vessels Act, I of 1917. Five candidates appeared for the examination for the grant of licenses to pilot steam-tugs, Port Commissioners' vessels and vessels plying between Calcutta and Chandbally and three passed.

Captain A. E. Harold, D.S.O., R.I.M., held charge of the office of the Port Officer and Shipping Master from the 23rd April 1920 till the end of the year

Engineer-Commander C. T. Amor, R.I.M., Principal Engineer and Ship-Surveyor, proceeded on leave on the 24th February 1921, making over charge of his office to Engineer Lieutenant-Commander J. S. Page, R.I.M., Second Engineer. Lieutenant-Commander W. H. Waters, R.I.M. assumed the duties of Principal Engineer and Ship Surveyor on the 4th March 1921.

Port of Chittagong.

Arrival and Departure of vessels.—The total number of vessels that entered the Port was 826, of which 235 were sea-going vessels, 552 inland steamers and 39 native sailing ships. The corresponding figures for out-going vessels were 819, 237, 551, and 31. The gross tonnage was 623,771 inwards and 629,237 outwards. In the previous year the number of arrivals was 842 with a total gross tonnage of 489,664, the number of departures being 835 with a total gross tonnage of 476,049.

Casualties to vessels.—There were two casualties to vessels, the same number as in the previous year. One resulted in total loss and the other was a case of grounding. No Marine Court of Enquiry was held.

Examinations.—One hundred and eighty-nine candidates sat for the examinations for Masters', Serangs', Engineers' or Engine-drivers' Certificates of Competency under the Inland Steam-vessels Act, I of 1917, out of whom 136 passed.

Commander H. M. K. Moilliet, O.B.E., R.I.M., held the office of Port Officer and Shipping Master up to the 12th November 1920. Commander E. C. Withers, C.I.E., R.I.M., was in charge from the 13th November 1920 to the end of the year.

Engineer Lieutenant-Commander W. A. Williams, R.I.M., held the office of Engineer and Ship Surveyor throughout the year.

HISTORY.

History of India.

The following books on Indian History are recommended to indicate the standard of knowledge required :—

Adharchandra Mookerjee	...	A Short History of the Indian people (revised edition, 1921).
R. C. Dutt	...	A Brief History of Ancient and Modern India, brought up to date by J. N. Gupta, M.A., I.C.S.
Vincent A. Smith	...	The Students' History of India.
Wathen and Garret	...	A History of India.
Jogendrachandra Chatterjee	...	Indian Mirror.
Kaliprasanna Bandyopadhyay	...	Bharatbarsher Itihas (History of India in Bengali).
Nrisinhachandra Mukhopadhyay	...	Matriculation History of India in Bengali.
Rajanikanta Gupta	...	Bharatbarsher Itihas (History of India in Bengali).

Administration and Progress of India under British Rule.

N. N. Ghosh	...	England's Work in India, revised edition, 1921.

GEOGRAPHY.

E. Marsden	...	Geography for senior classes, Parts I and II.

The World with fuller treatment of India (Longman's Geographical Series for India, Book II).

F. D. Unstead	...	The Practical Geography, Parts I and II.
B. C. Wallis	...	Macmillan's Geographical Exercise Book (India).

Open only to candidates whose vernacular is not this language.

The following books are recommended for the use of teachers :—

Blandford	...	The Rudiments of Physical Geography for the use of Indian Schools.
Frew	...	A Regional Geography of the Indian Empire (Blackie and Son.)
Wallis	...	The Teaching of Geography (Cambridge University Press).
O'Malley	...	Bengal, Bihar and Orissa, Sikkim (Macmillan & Co.).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :—

A. E. Frye	...	The Child and Nature.

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

I.—(The total cost need not exceed Rs. 65).

(1) A measuring tape.
(2) A magnetic compass.
(3) Squared paper and tracing paper.
(4) Clay, dry sand, paper pulp for modelling.
(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines only of the land masses marked upon it.
(6) A map of the school locality on a scale of 4″ or 6″=1 mile.
(7) A map of the district in which the school is situated on the scale 1″=1 mile.
(8) A coloured map of the province.
(9) A coloured political map of India.
(10) A physical map of India.
(11) A relief map of India.
(12) A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand maps, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II.—The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-guage.
(4) A small collection of typical rocks, in particular those of the province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic-lantern and slides.

1. The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5 respectively.

2. Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London. Small hand Globes of German make can be obtained through the Indian School Supply Depôt for about a rupee each.

3. The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District maps: also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablche French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

4. The hand-maps, coloured to indicate relief published by the Diagram Company West Barnes Lane, New Malden, Surrey, at one penny each are the best of their kind.

The uncoloured half penny maps, showing river systems and a few towns, published by the same Company are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15-inch map of the world on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds. Messrs. Hacbette of Paris and Messrs. Holzel of Vienna, and Messrs. Longmans Green and Company. The cost, delivered in India, from two to three rupees each.

Map lantern slides and view sides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

ELEMENTARY MECHANICS.

The following books are recommended :—

Sir Philip Magnus	...	Elementary Mechanics (Longmans, 1903).
A. N. Sen ...	...	Elementary Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and level.
Simple lever (including brass slotted weight).
Roman steel yard.
Lecture apparatus for experiments on movements.
George's New Atwood's Machine.
Stop-watch.
Glazebrook's apparatus (to demonstrate movement of a body).

Compound Wheel and Axle.
4 Single Brass Pulleys.
2 Single Brass Pulleys.
2 Triple Brass Pulleys.
Weston Differential Pulley Blocks (½ ton).
16 feet of Chain at 6*d.* per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of Gramme Weights (200 grams to 1 mgr.).
2 Composition-ivory Balls,

Note.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will propably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.
